

Genes with signal peptides: A GCG dM

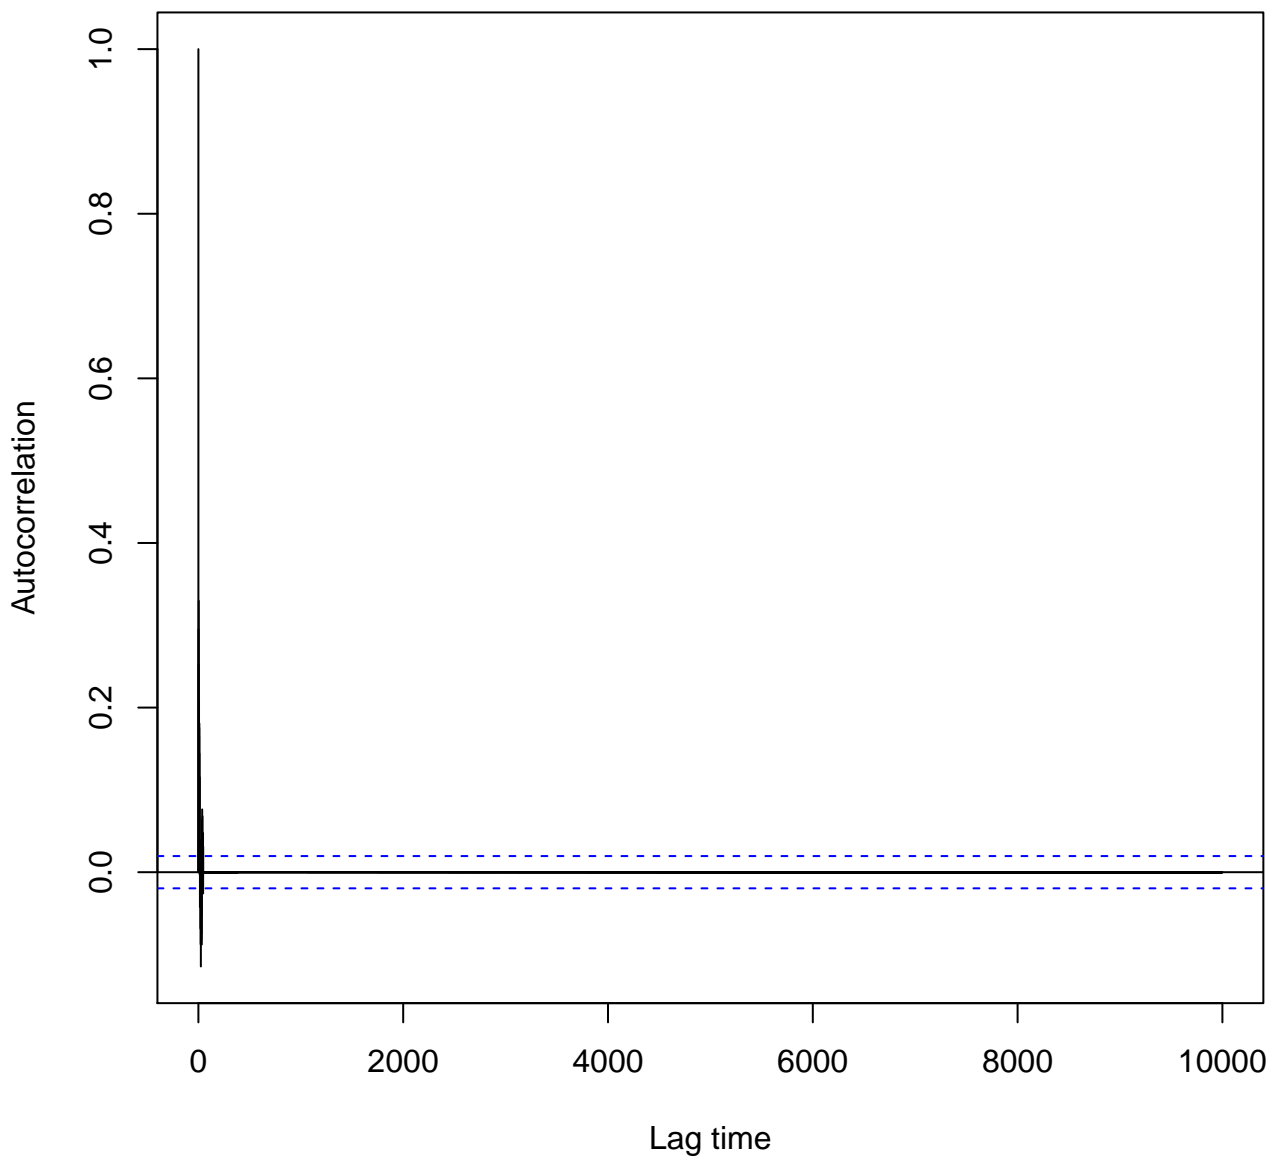

Genes with signal peptides: A GCG dEta

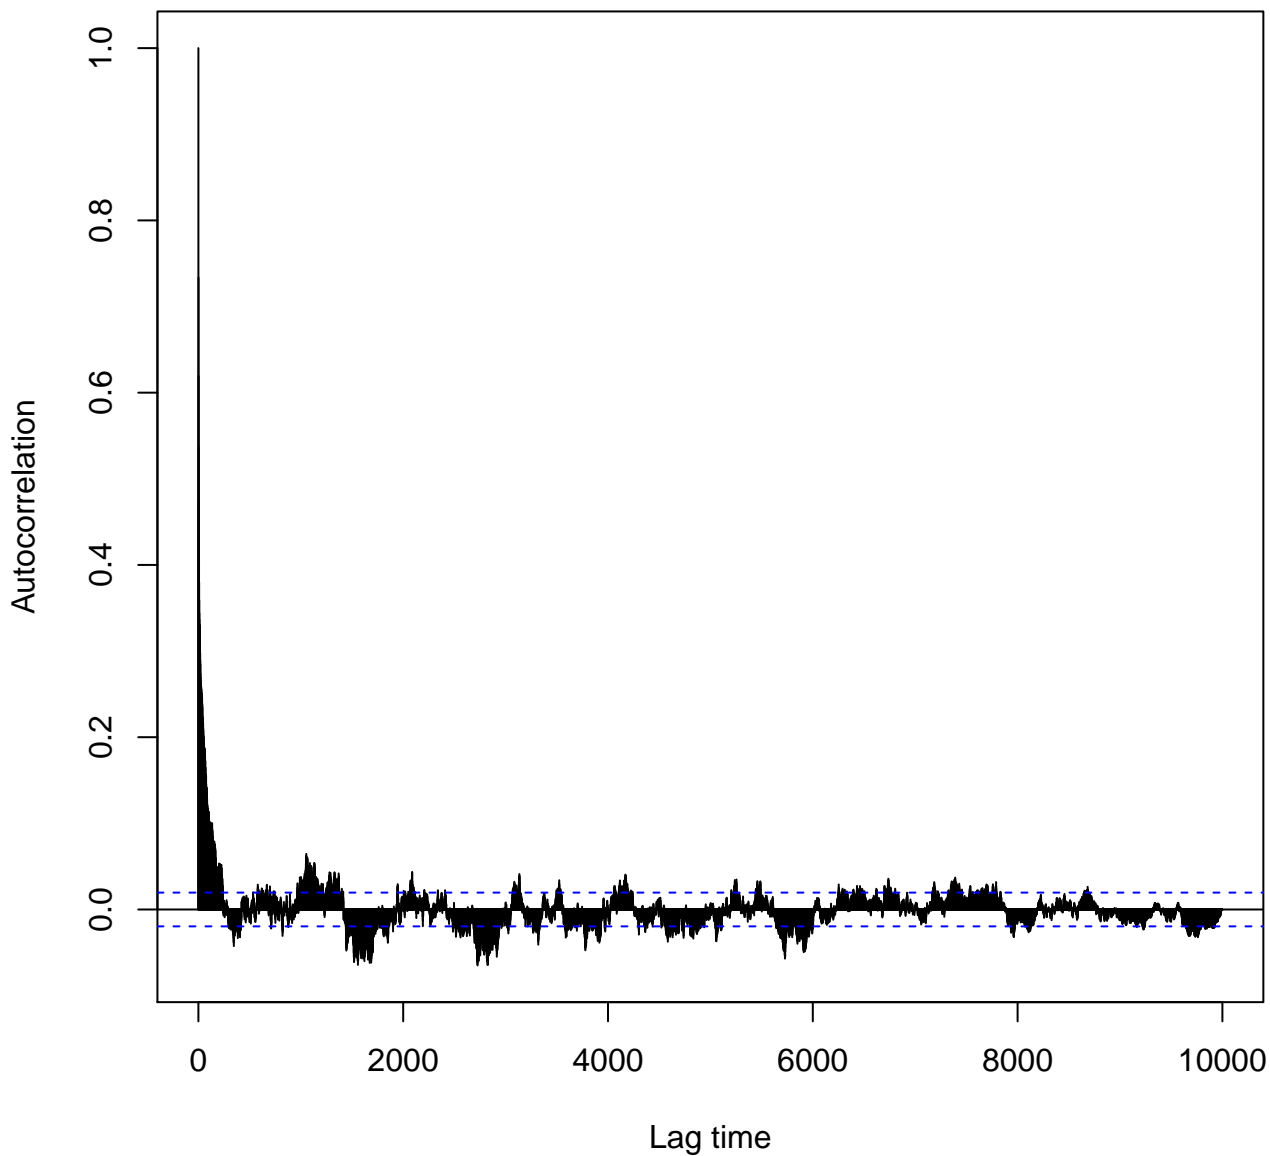

Genes with signal peptides: C TGC dM

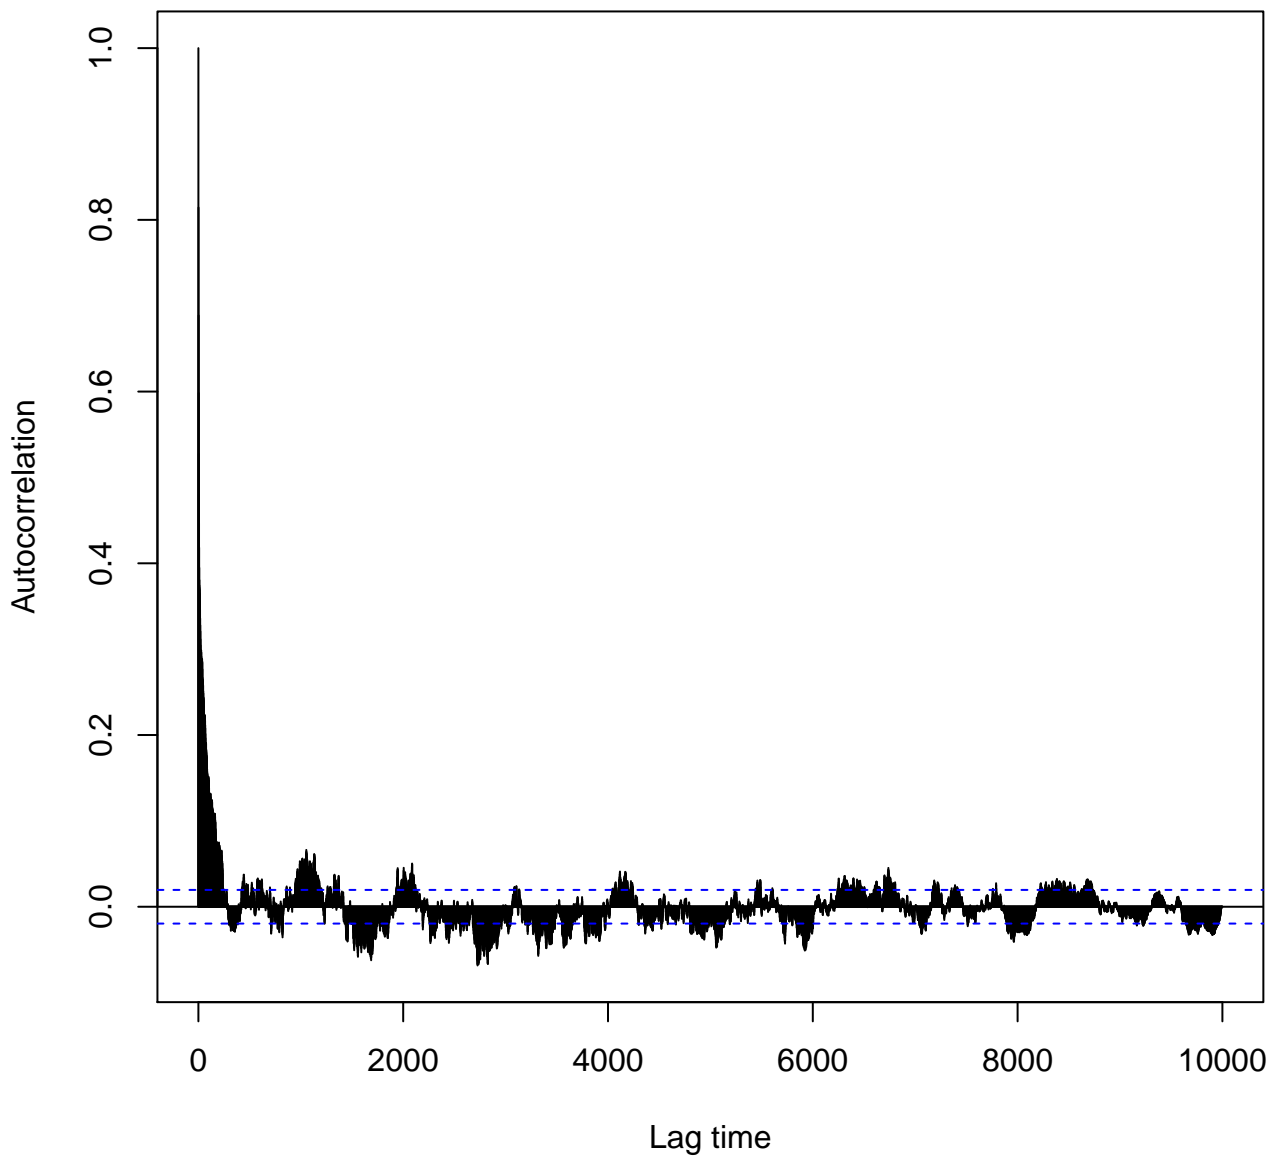

Genes with signal peptides: C TGC dEta

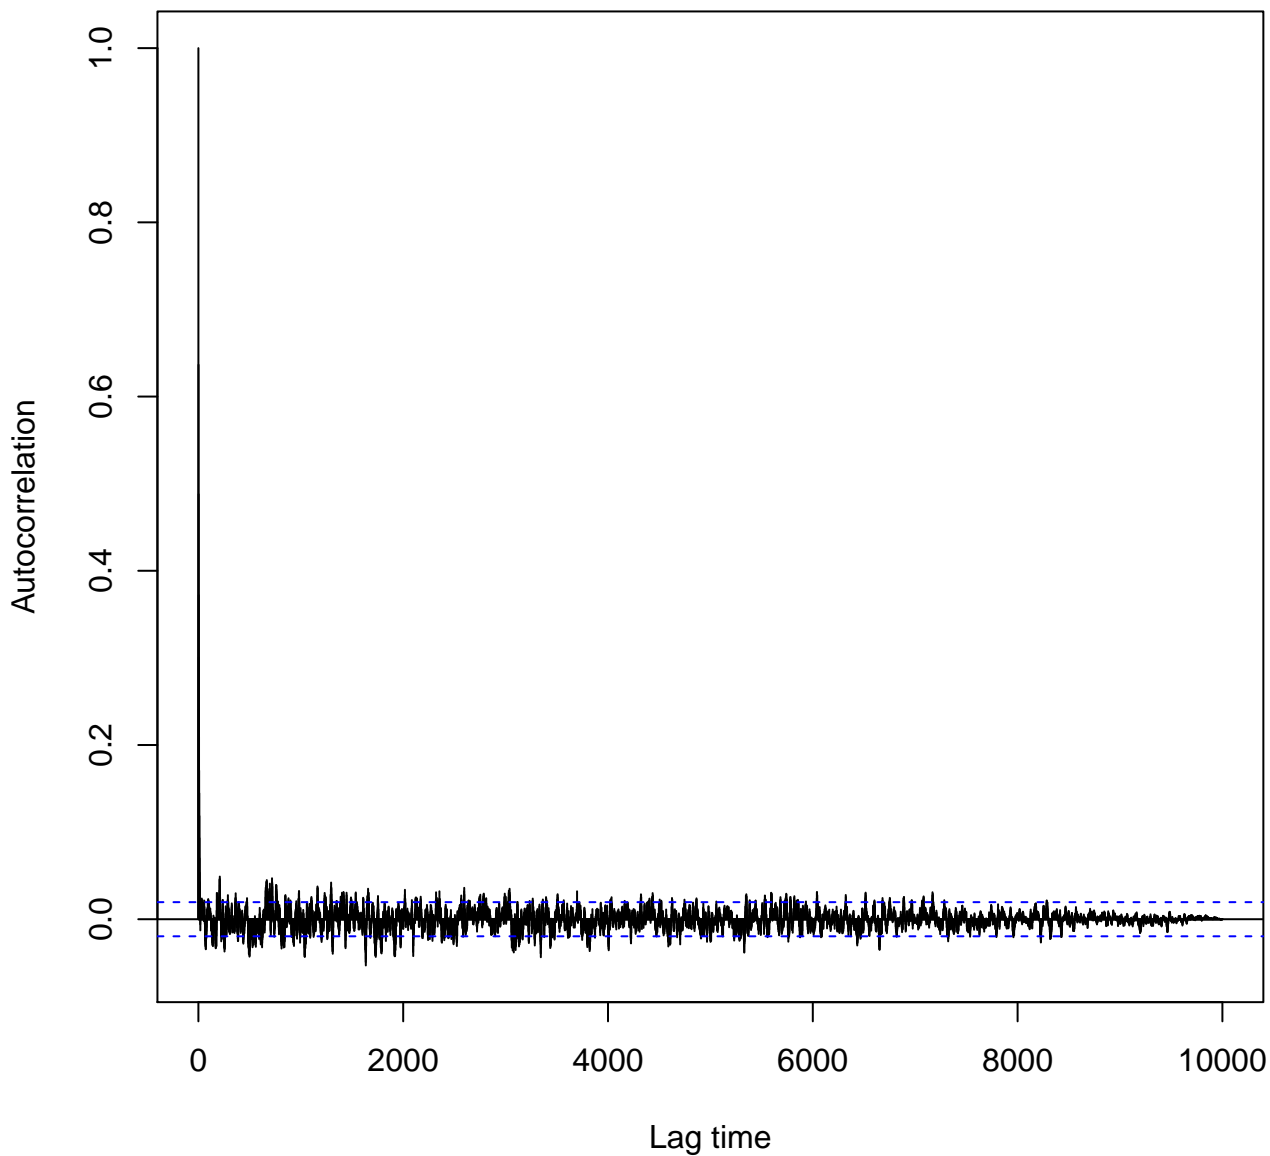

Genes with signal peptides: D GAC dM

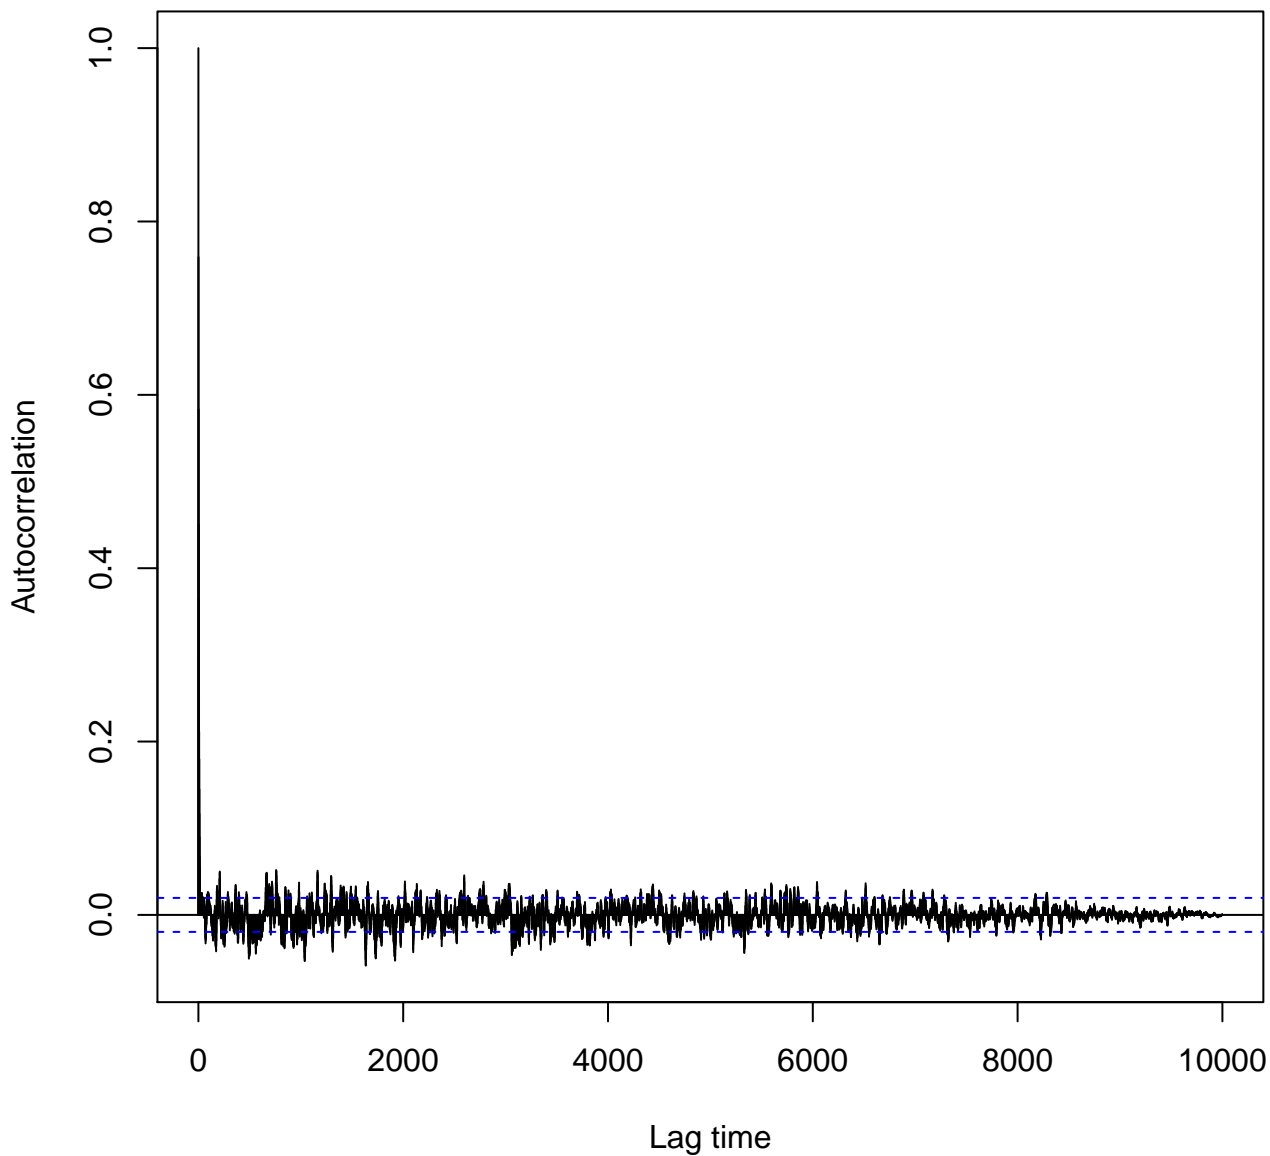

Genes with signal peptides: D GAC dEta

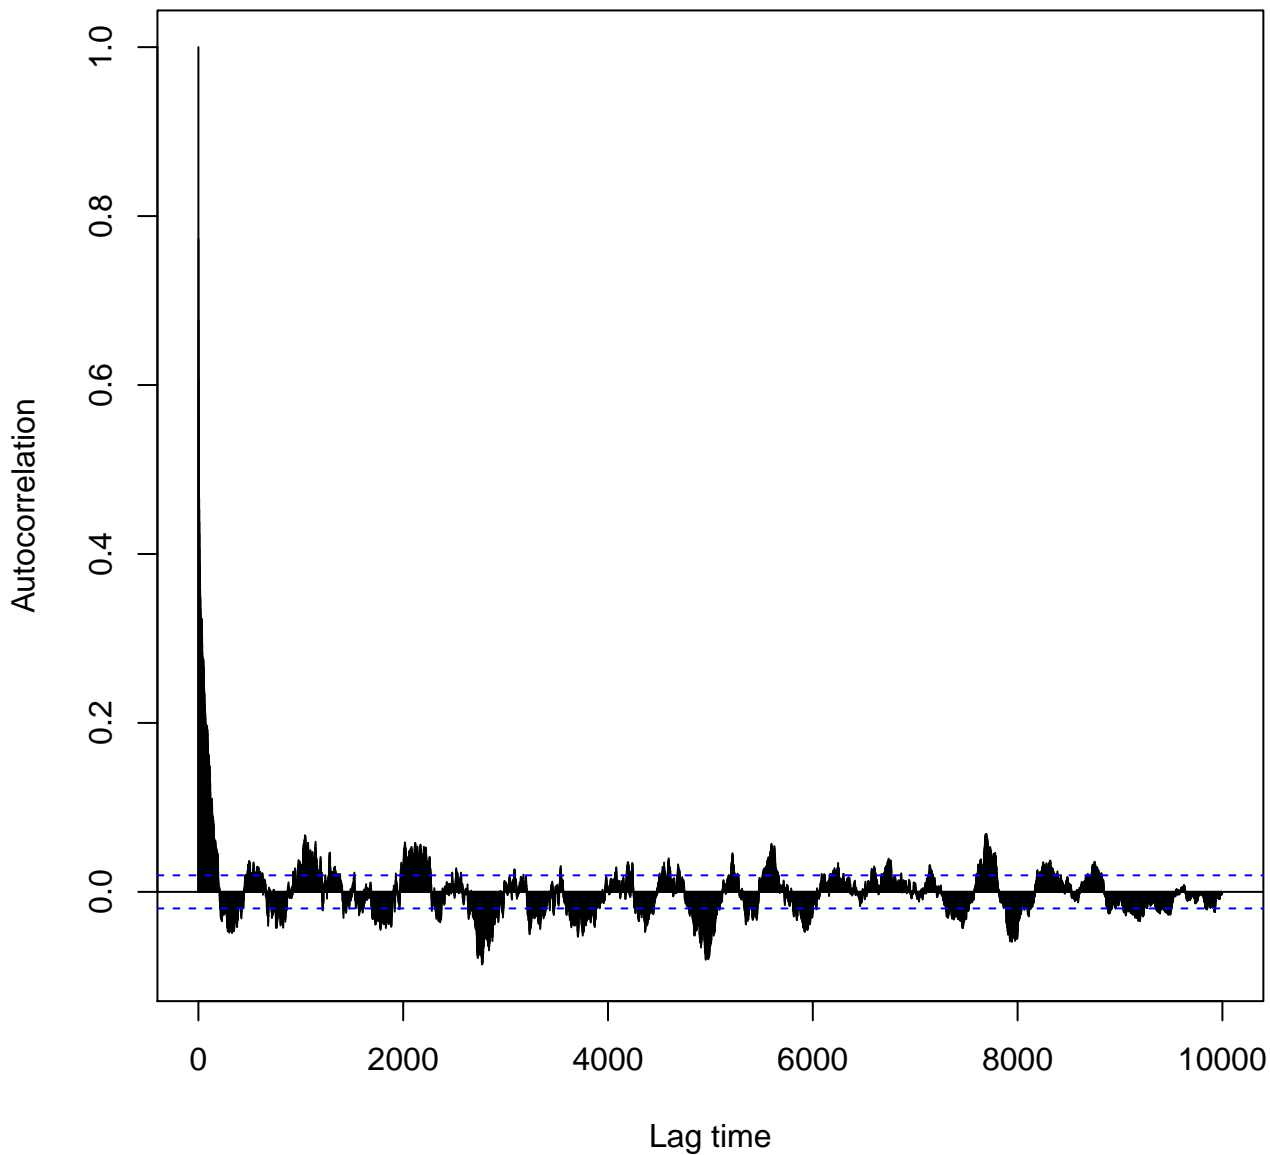

Genes with signal peptides: E GAA dM

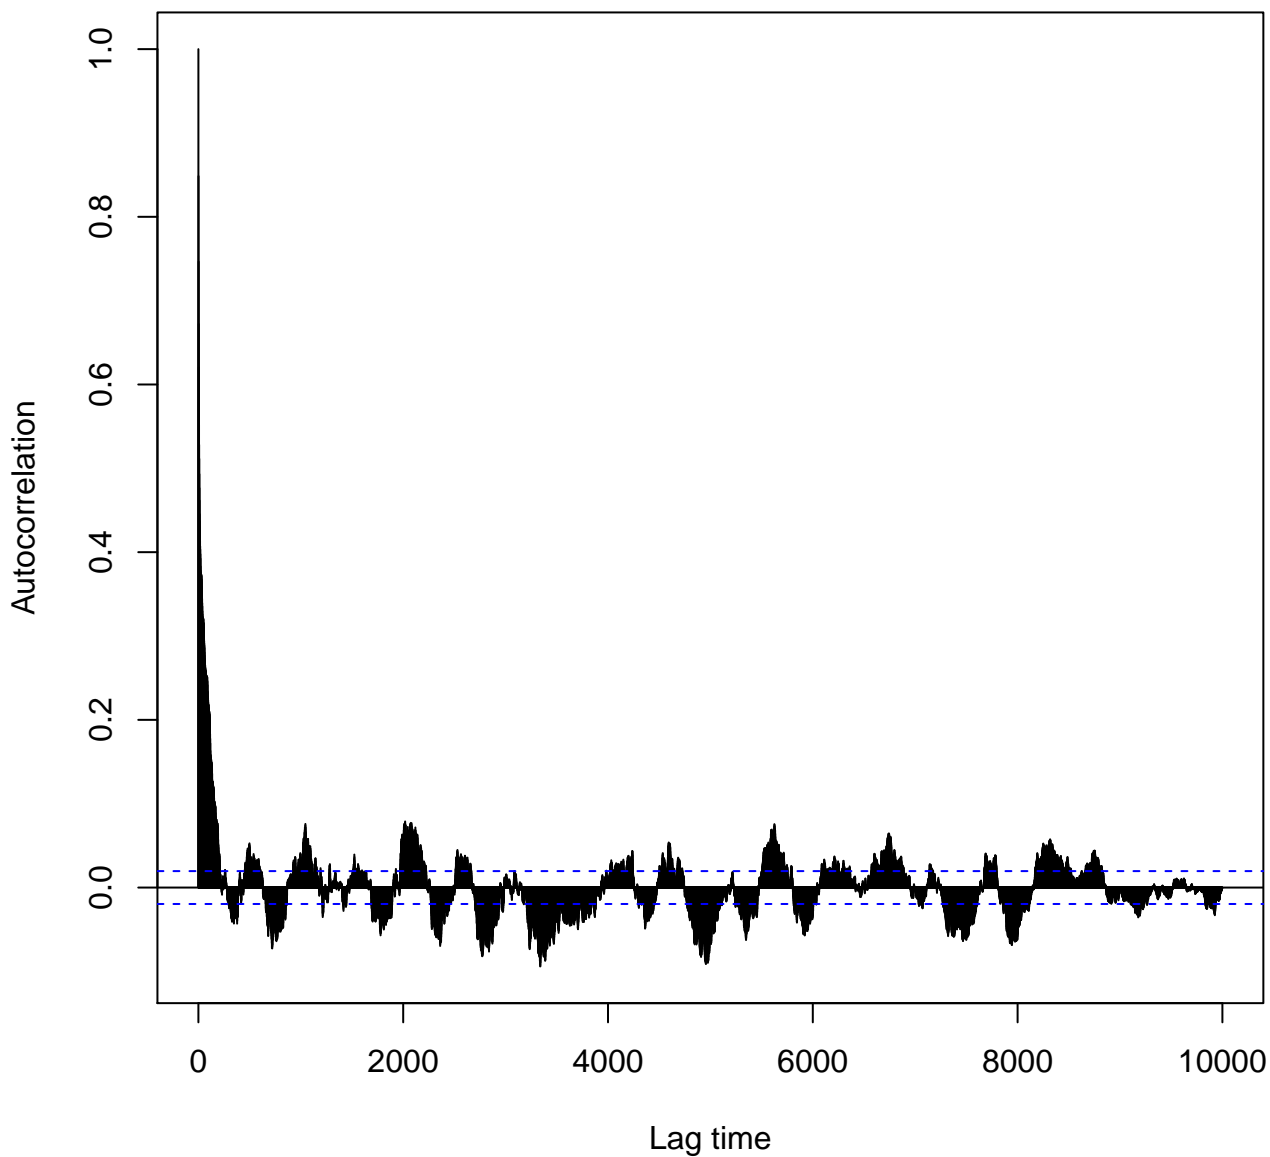

Genes with signal peptides: E GAA dEta

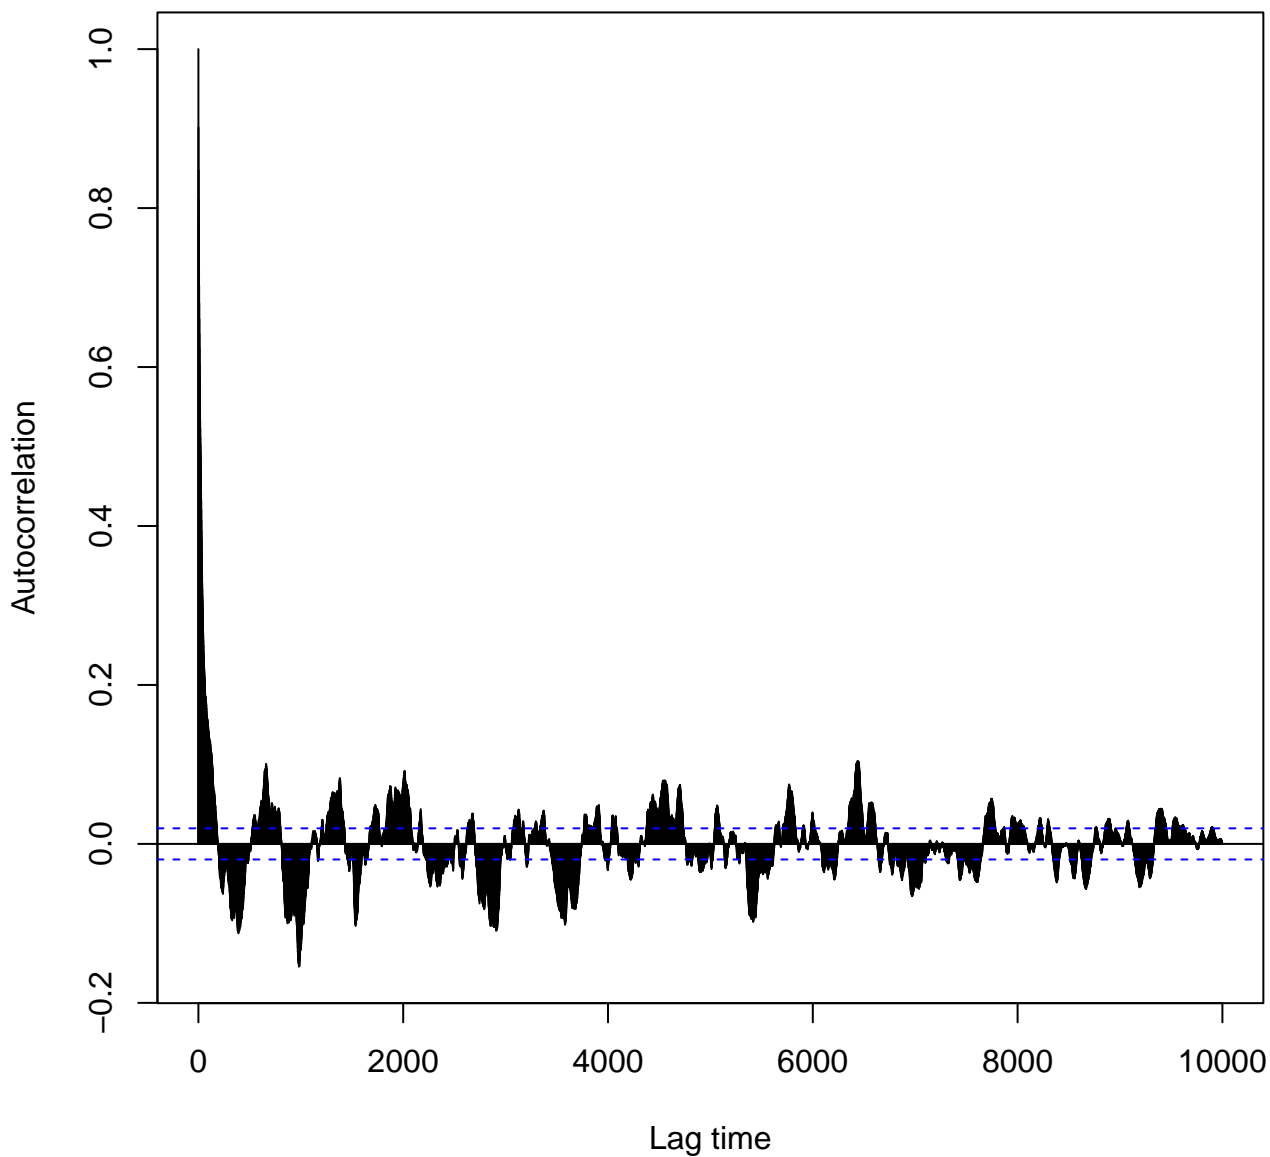

Genes with signal peptides: F TTC dM

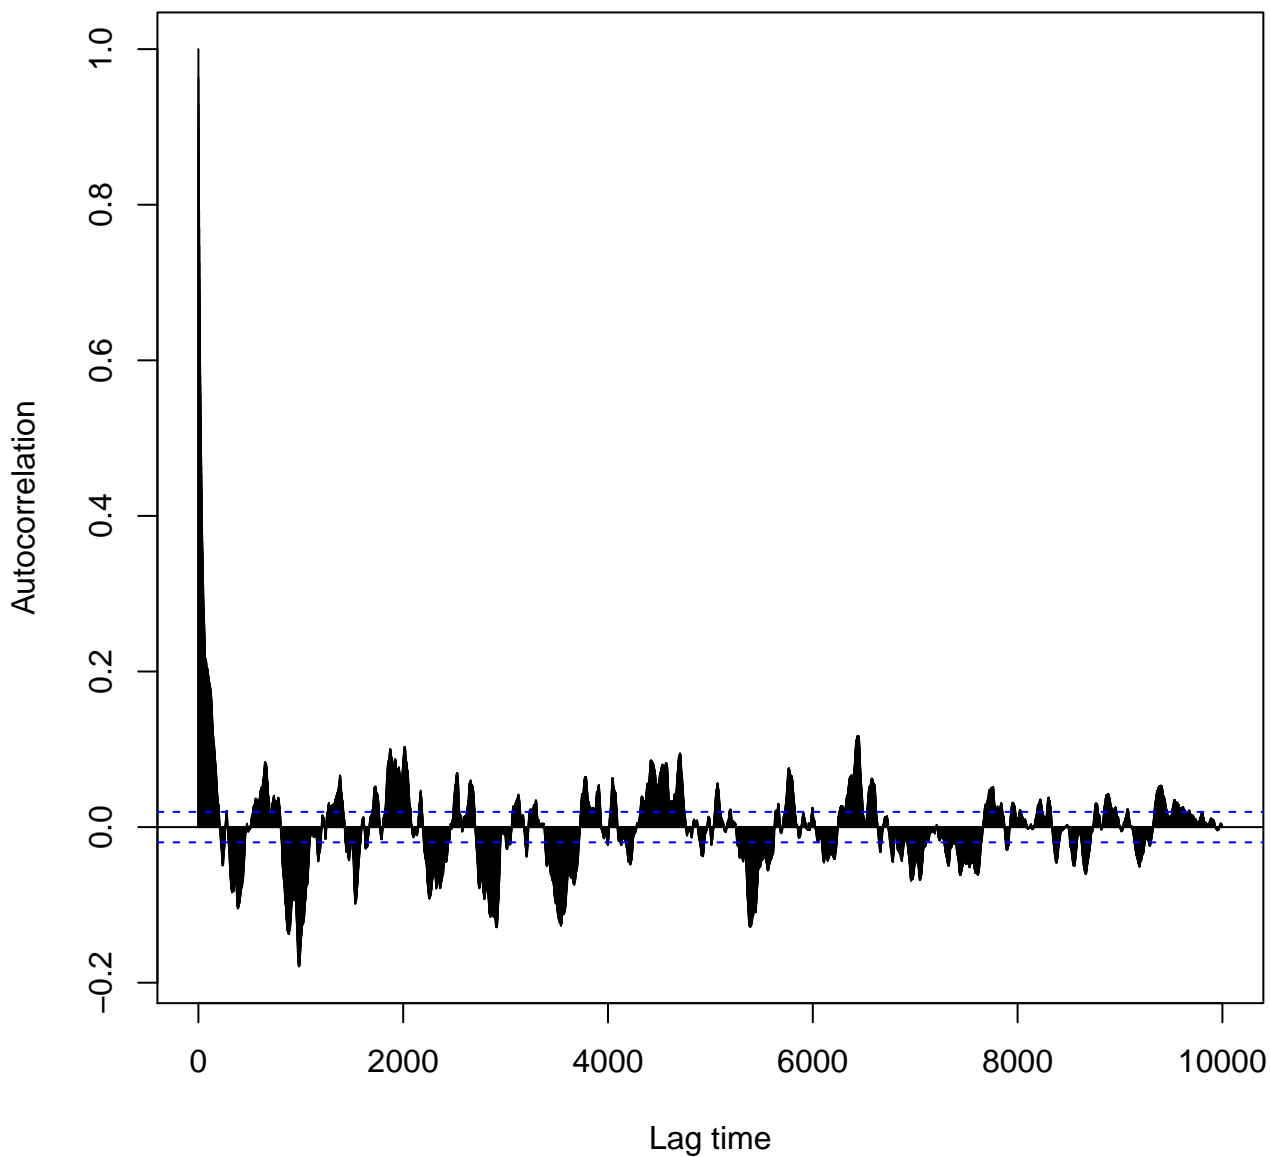

Genes with signal peptides: F TTC dEta

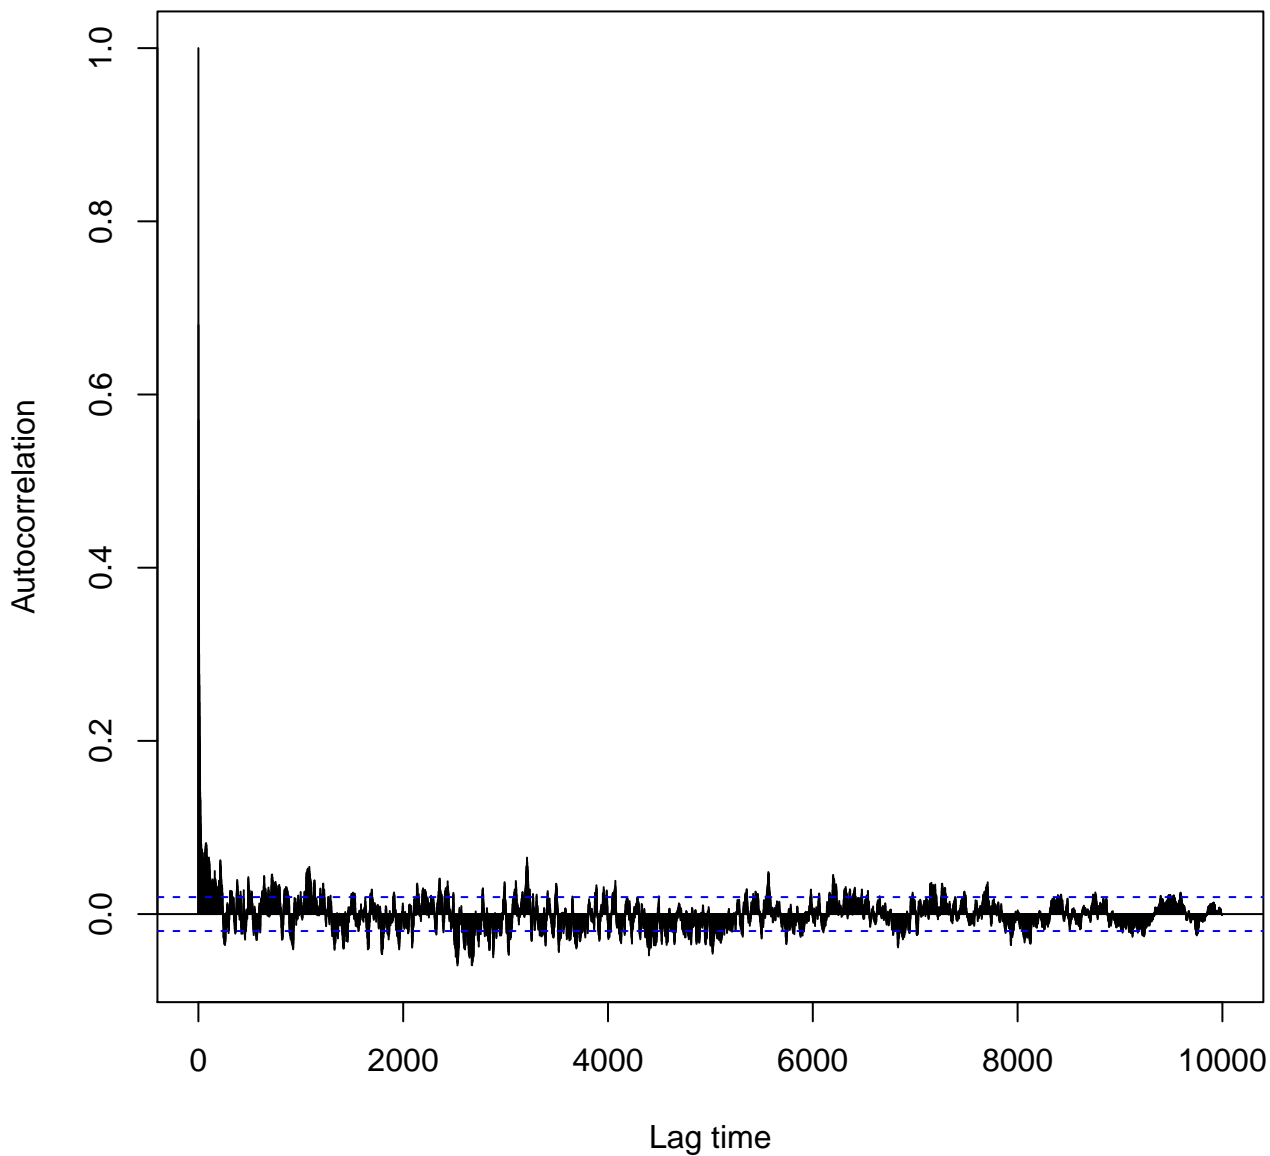

Genes with signal peptides: G GGG dM

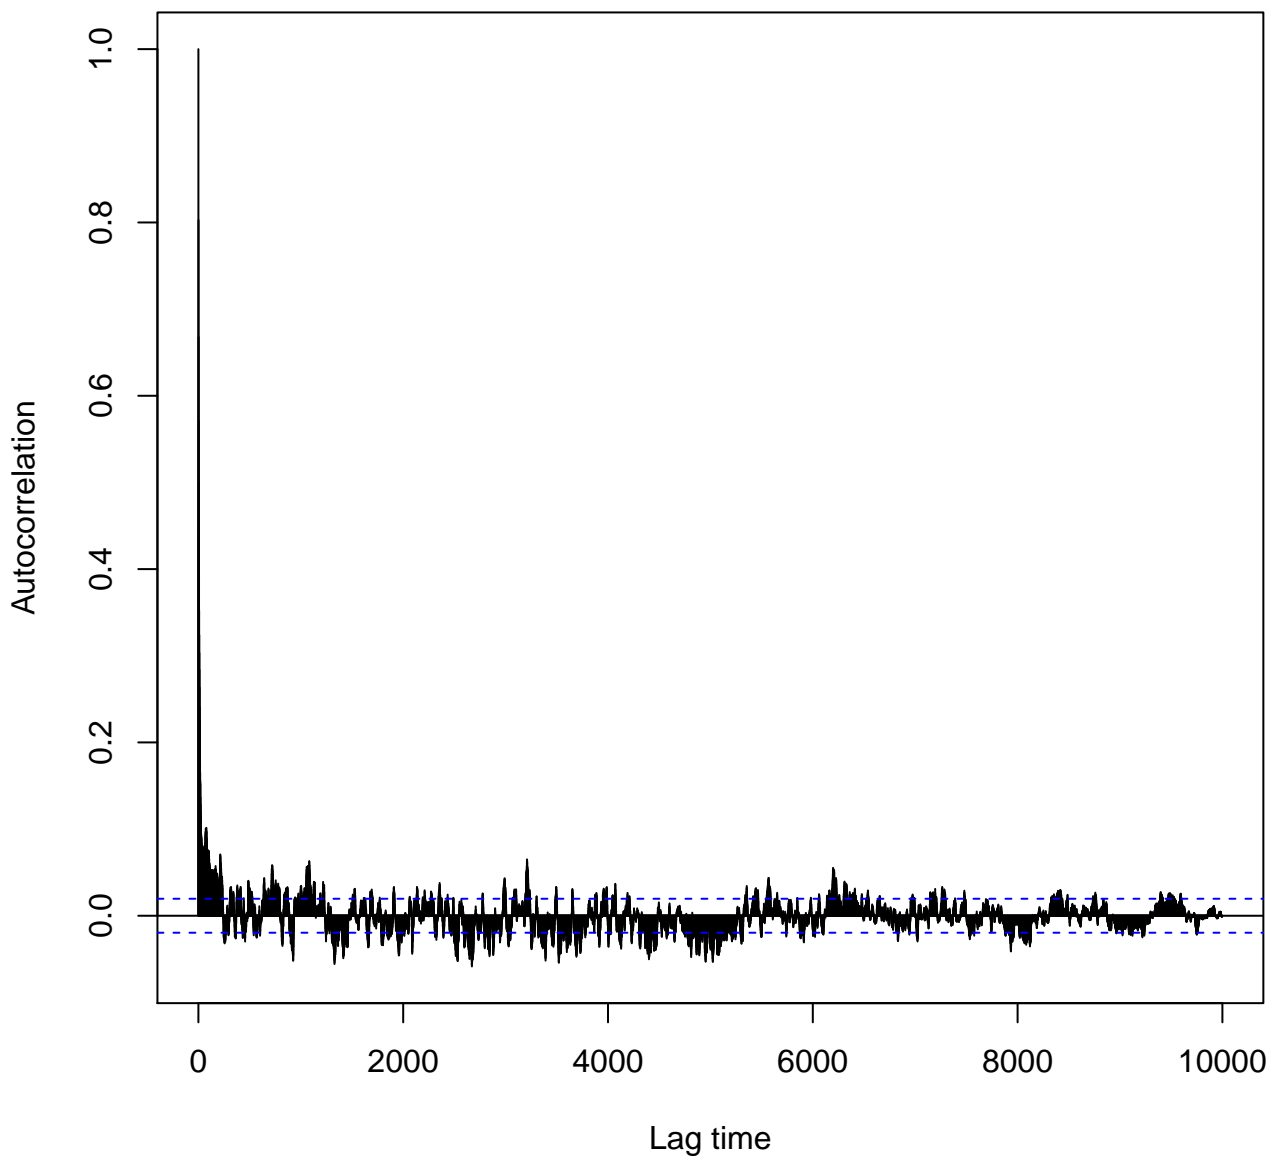

Genes with signal peptides: G GGG dEta

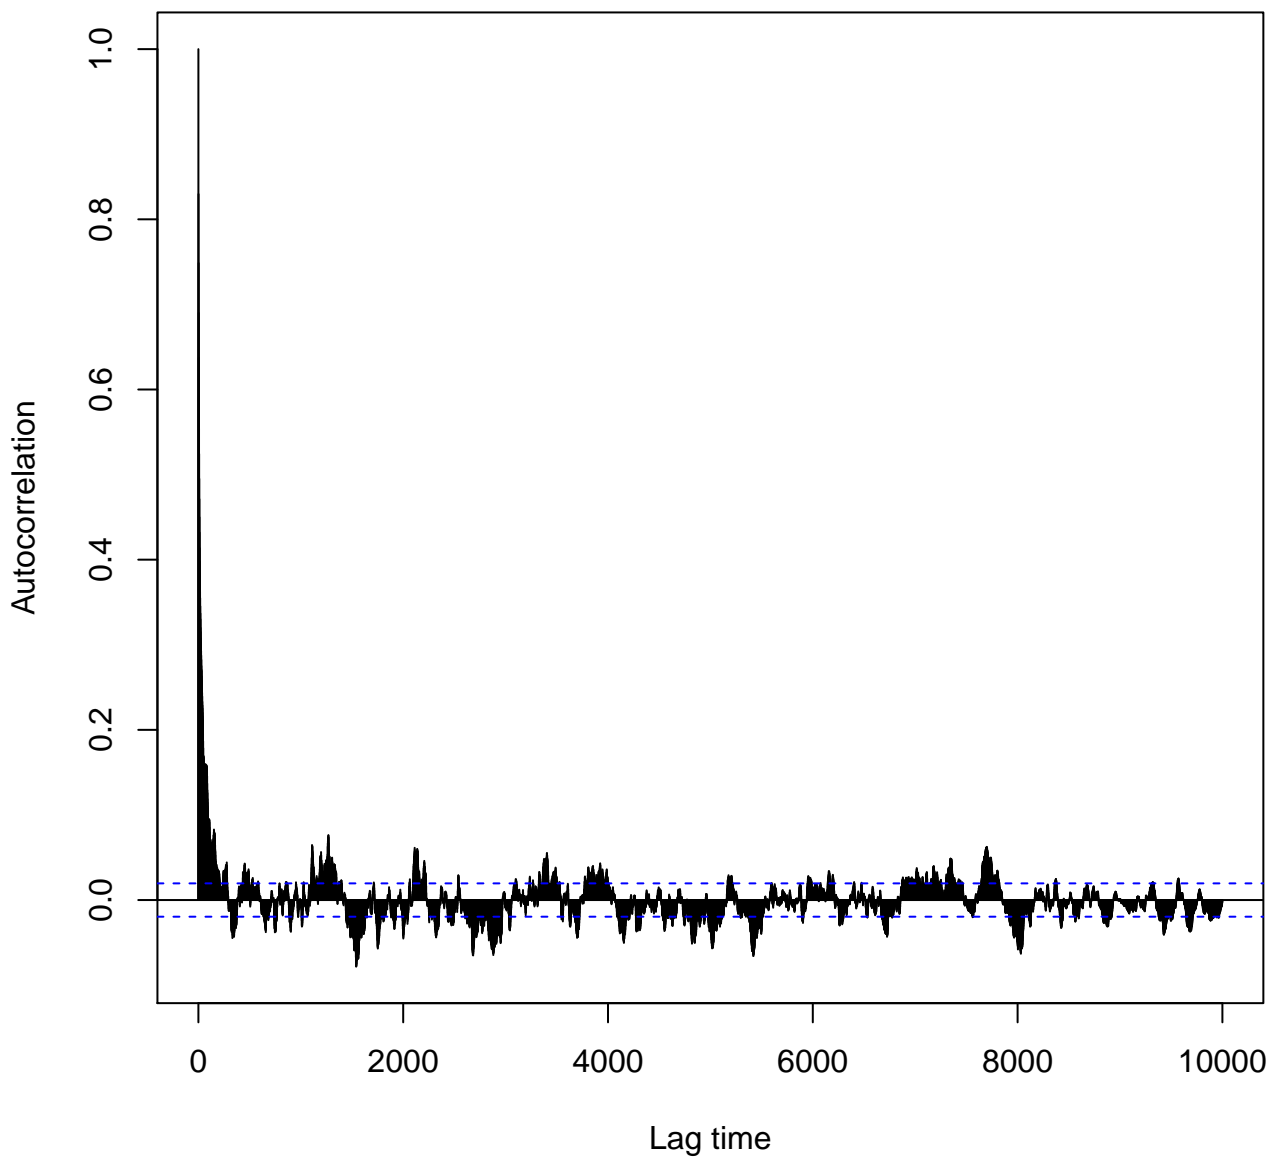

Genes with signal peptides: H CAC dM

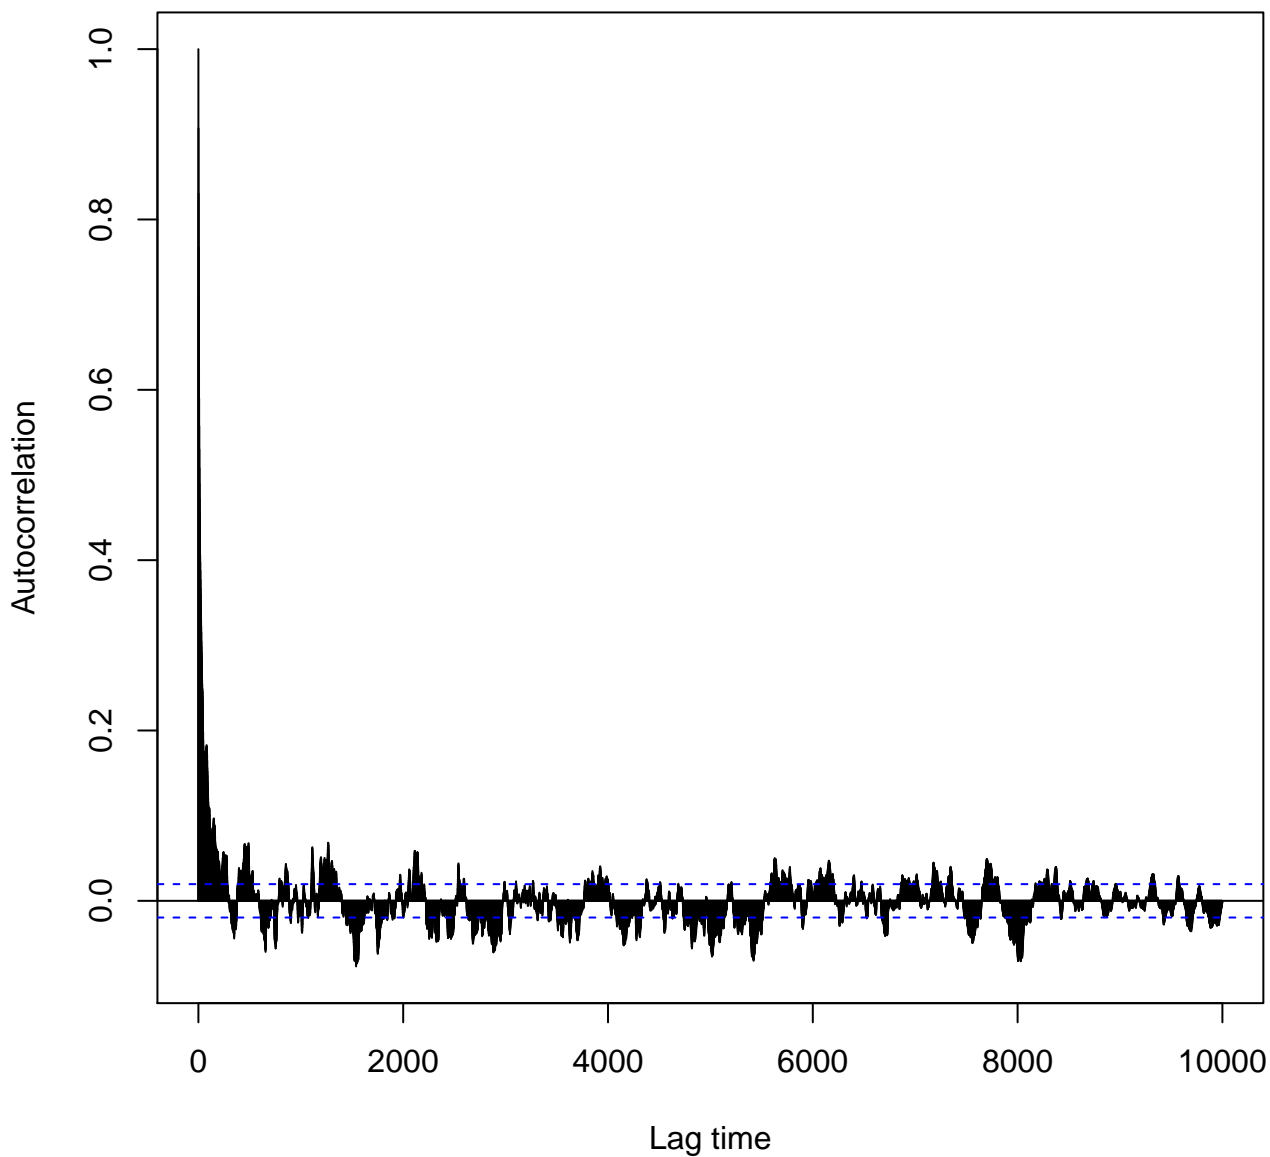

Genes with signal peptides: H CAC dEta

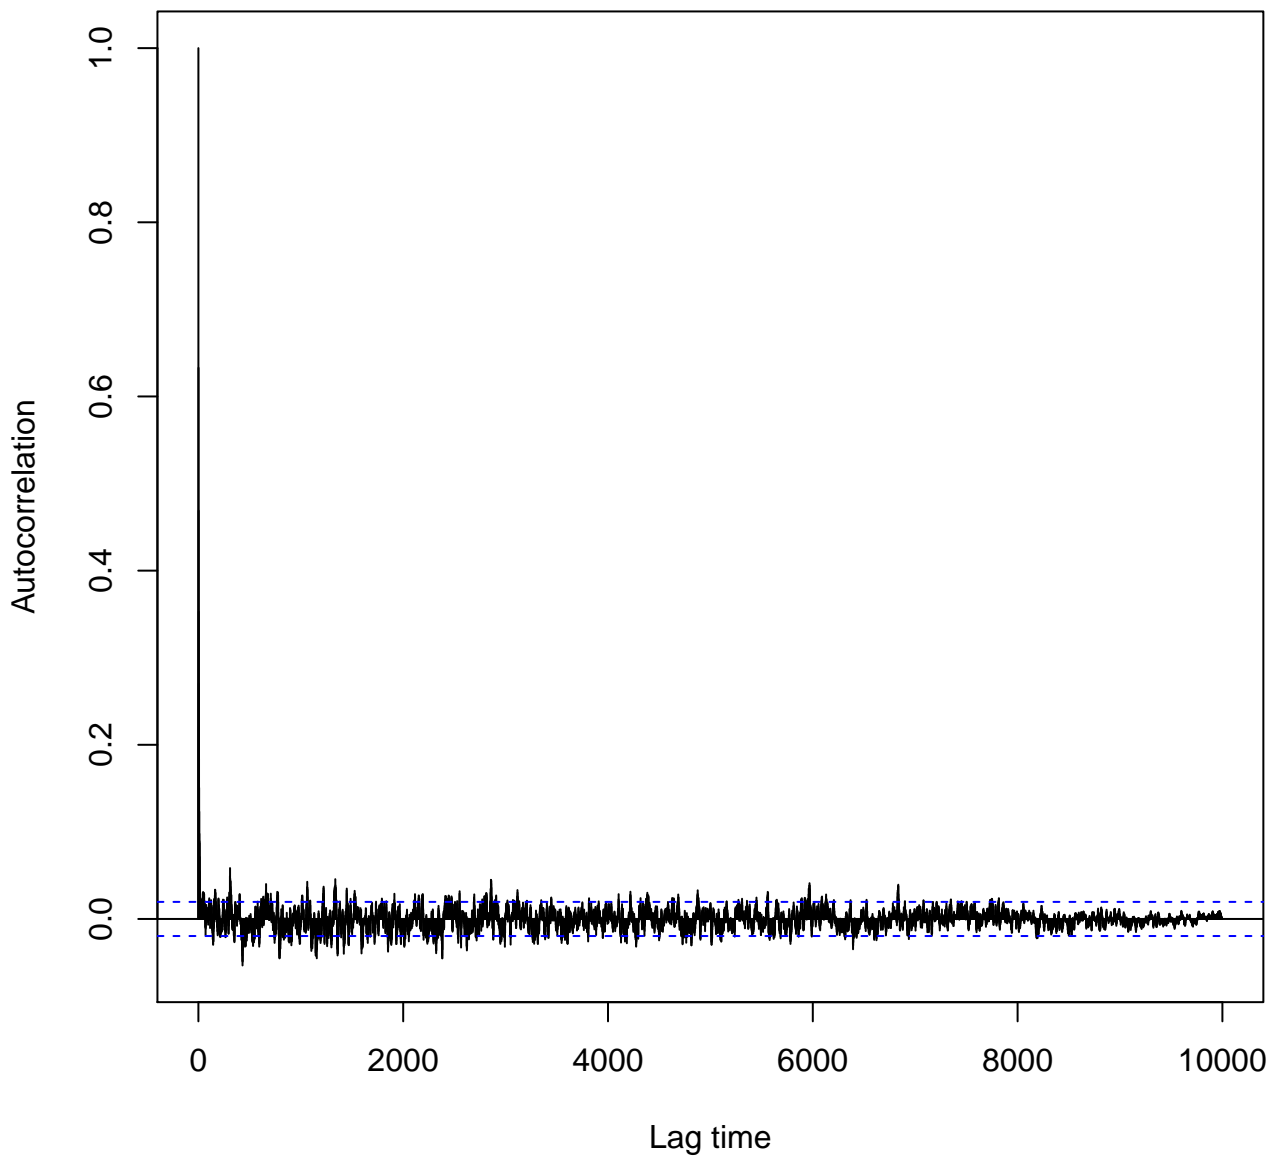

Genes with signal peptides: I ATC dM

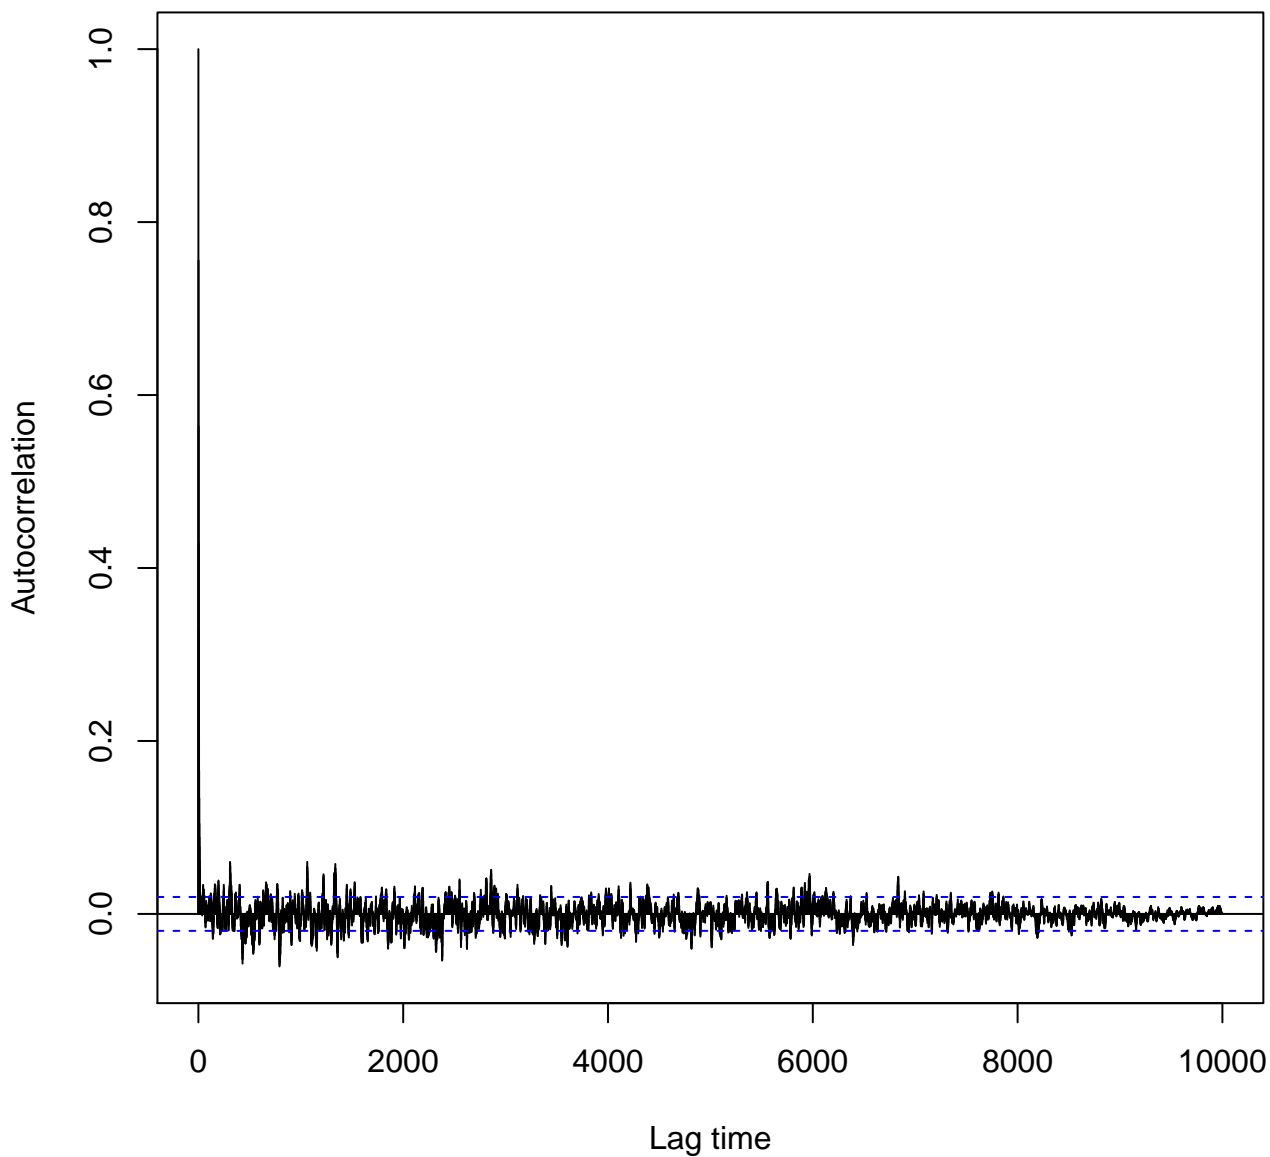

Genes with signal peptides: I ATC dEta

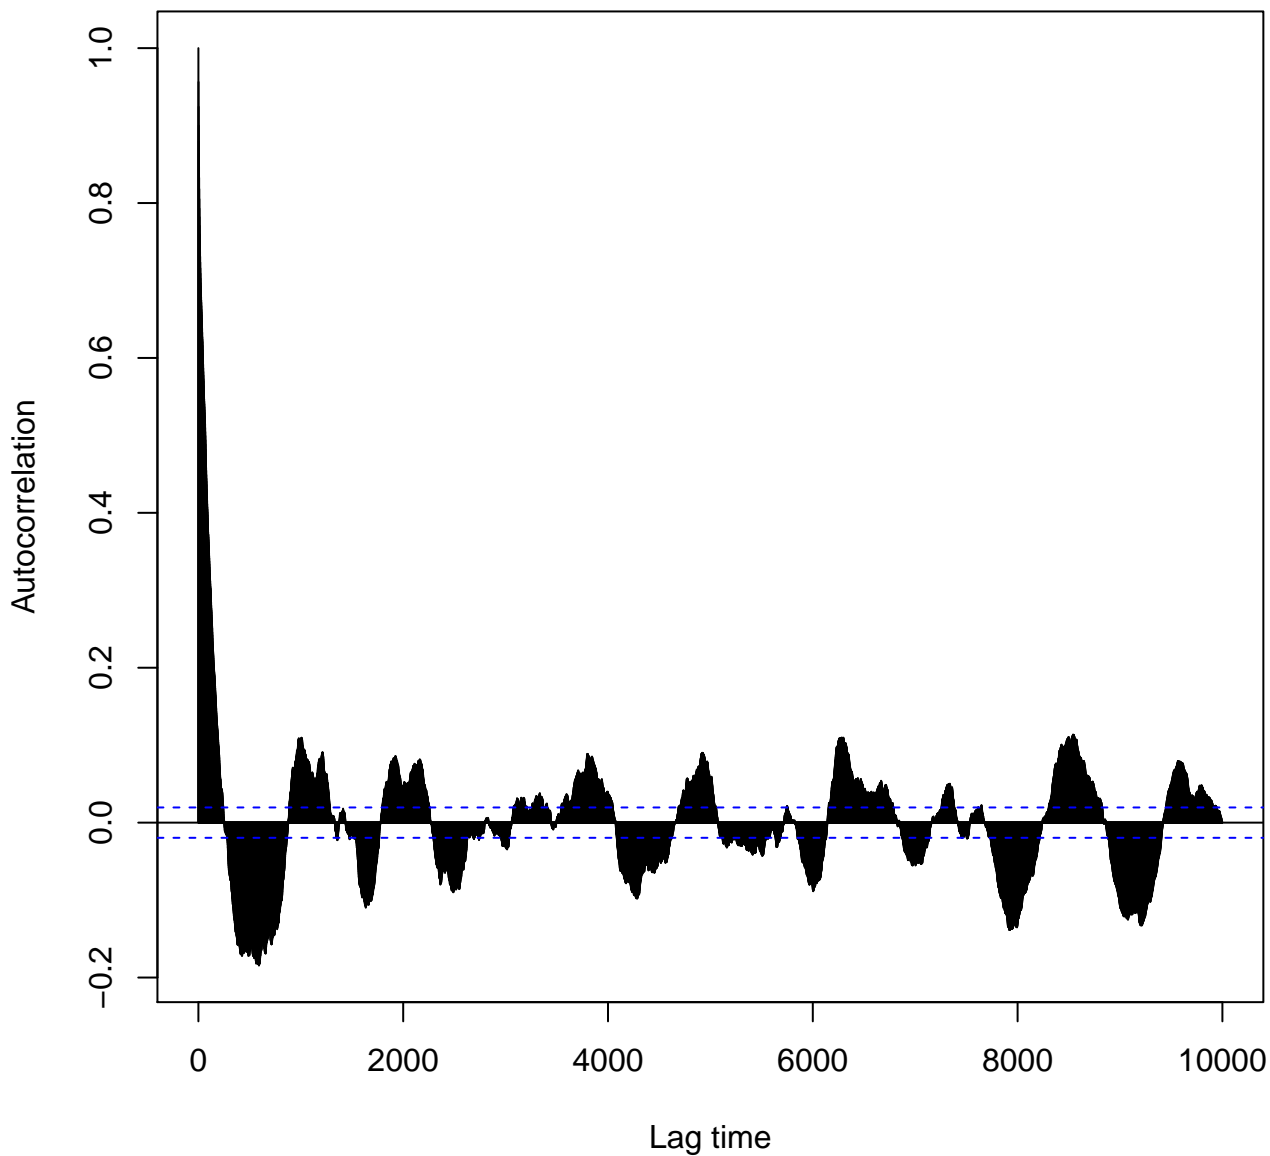

Genes with signal peptides: K AAA dM

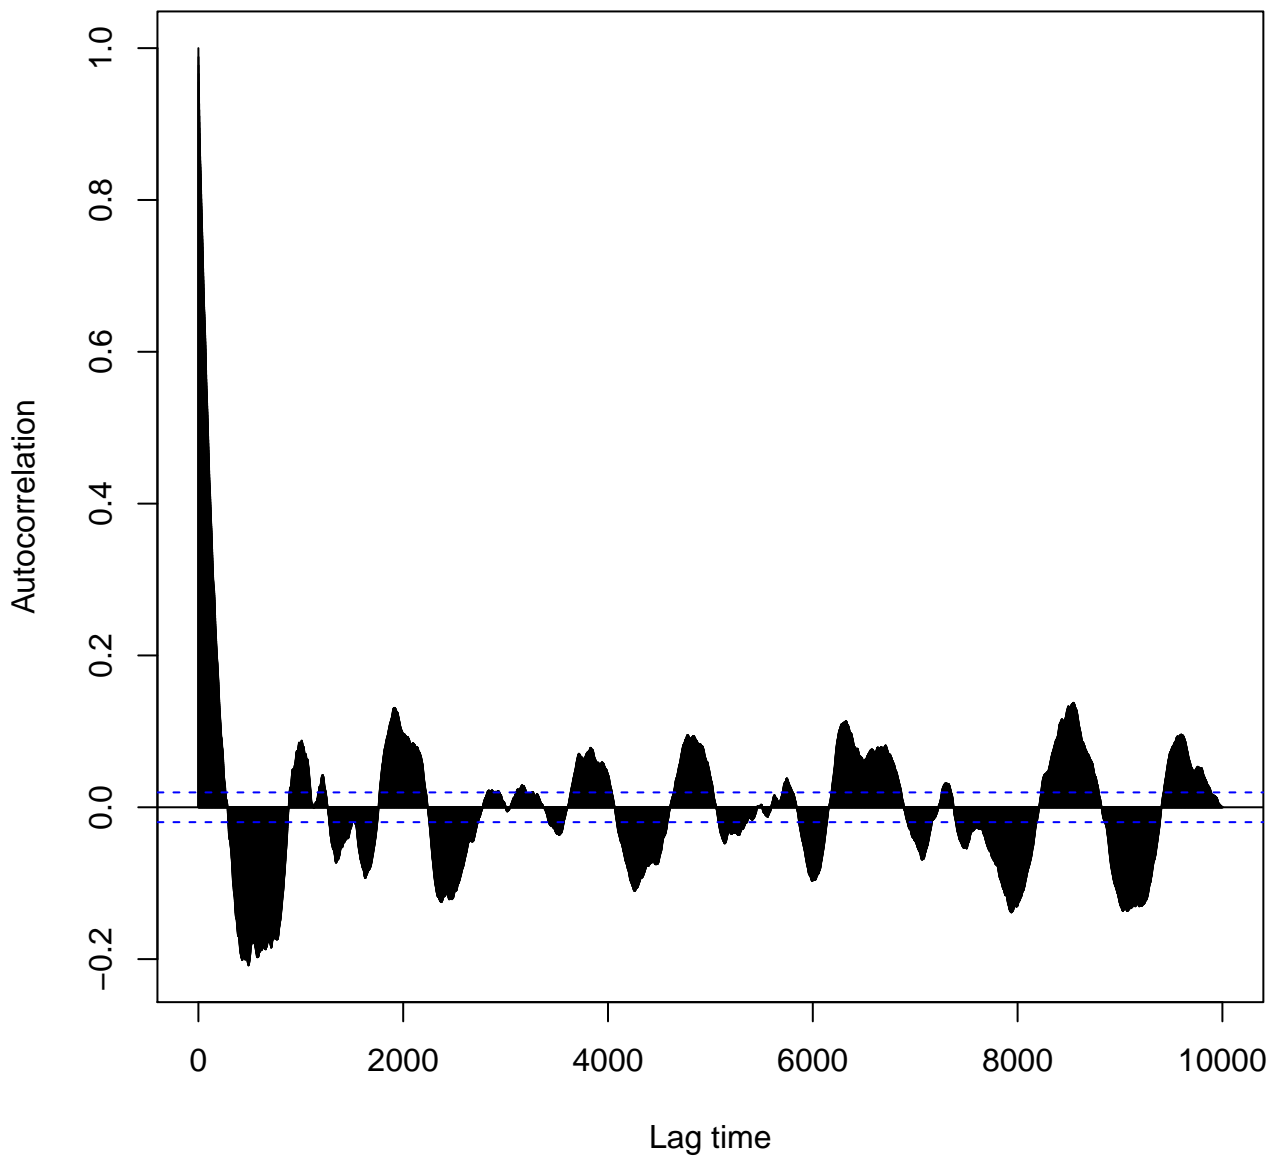

Genes with signal peptides: K AAA dEta

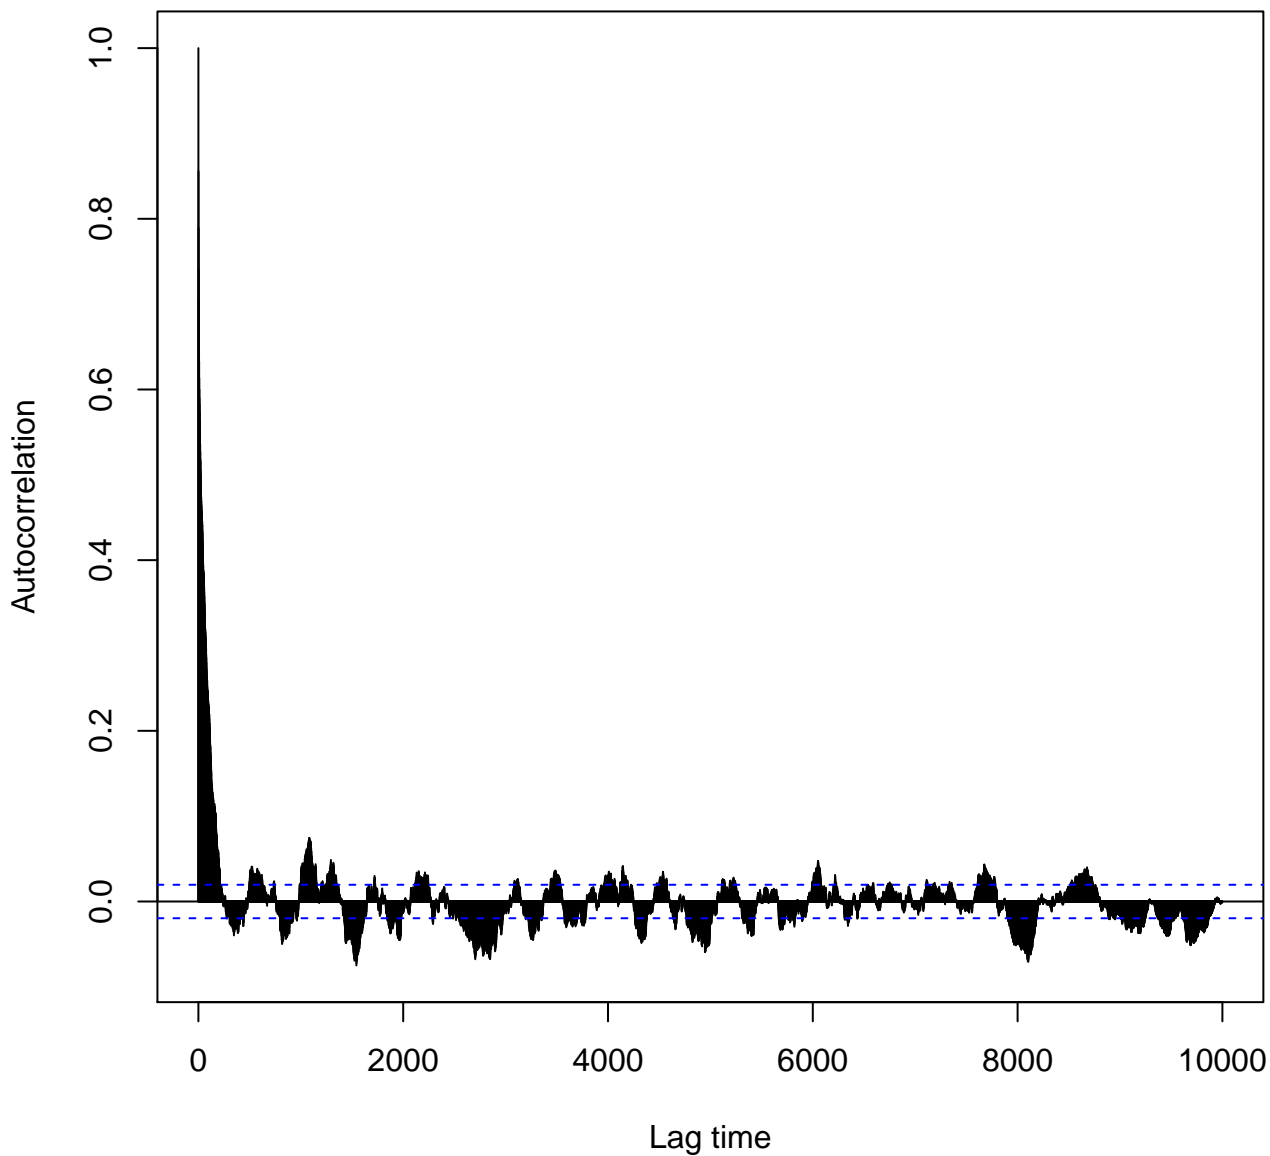

Genes with signal peptides: L TTA dM

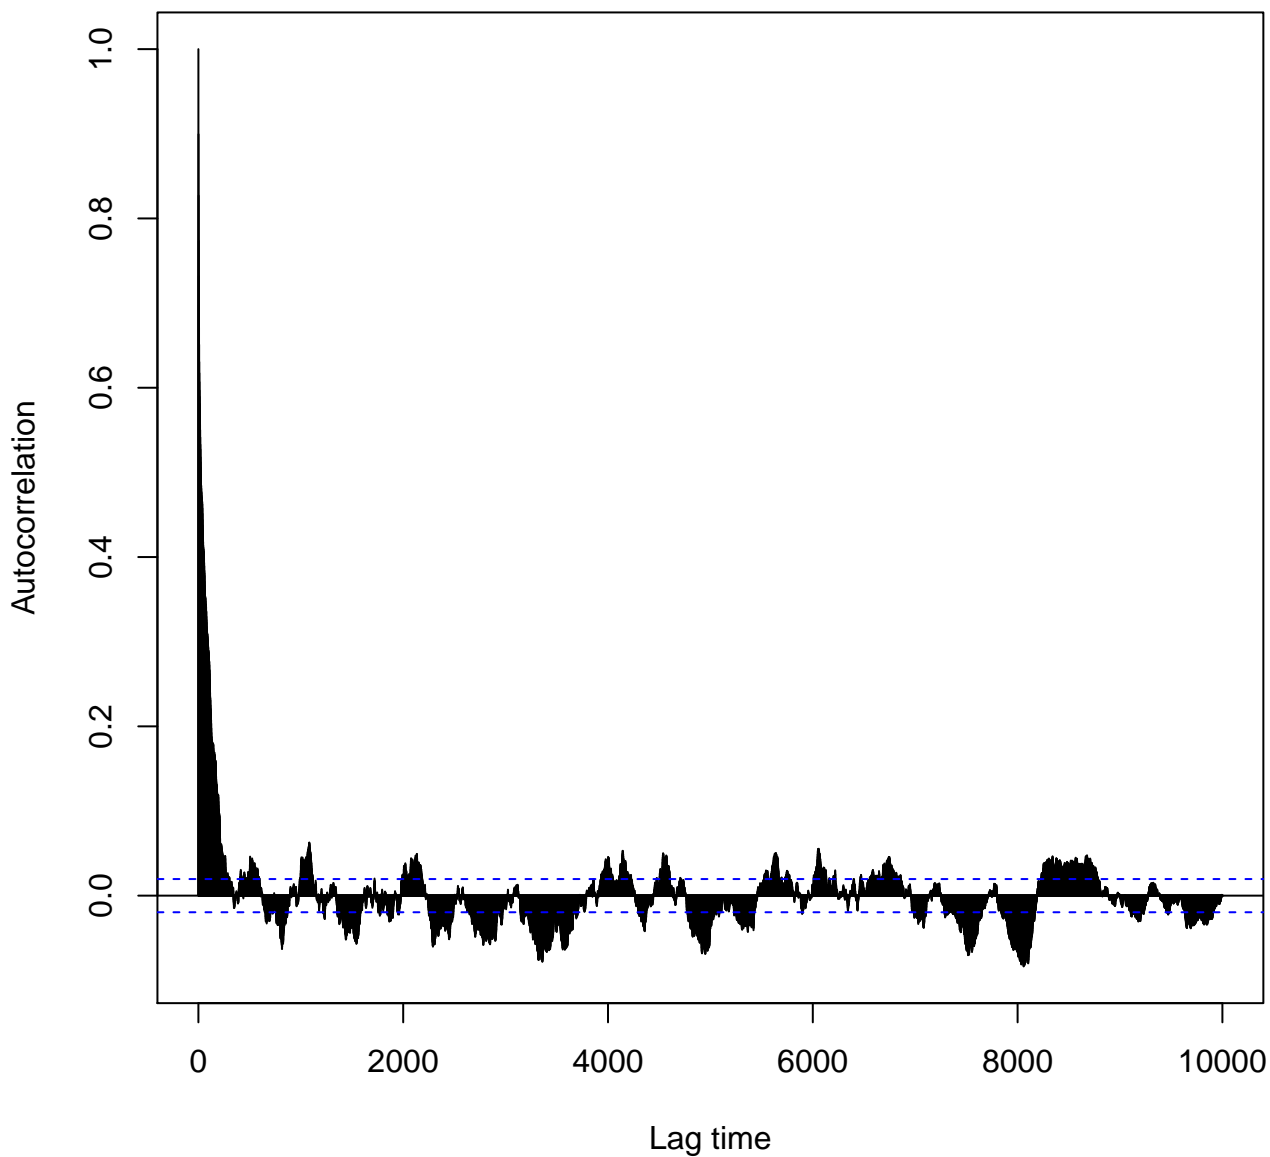

Genes with signal peptides: L TTA dEta

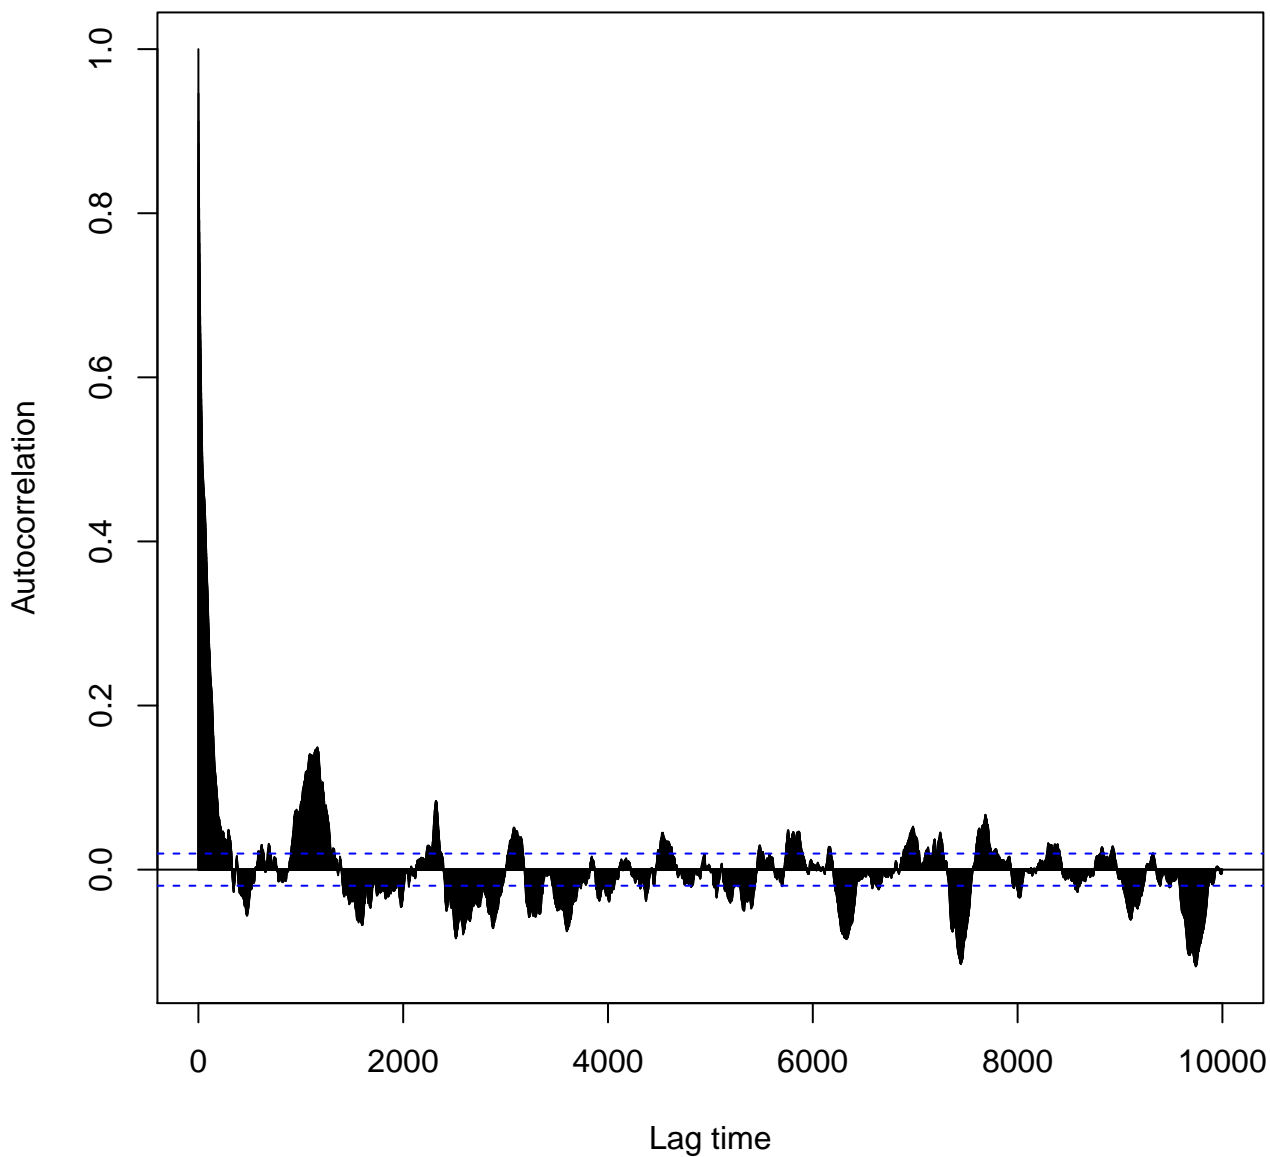

Genes with signal peptides: N AAC dM

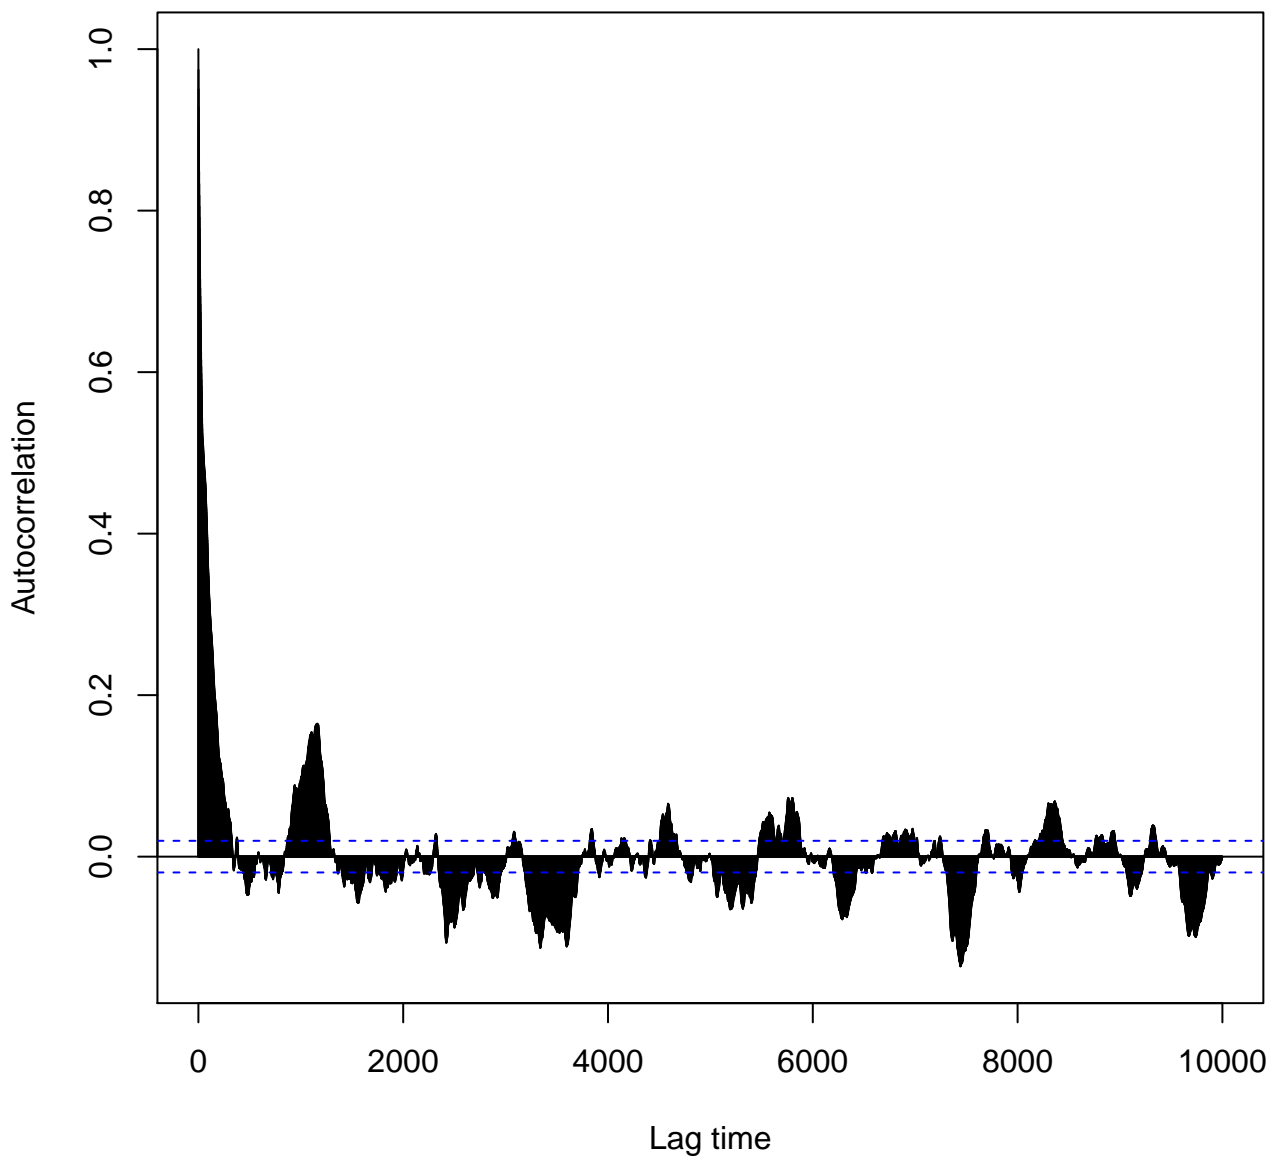

Genes with signal peptides: N AAC dEta

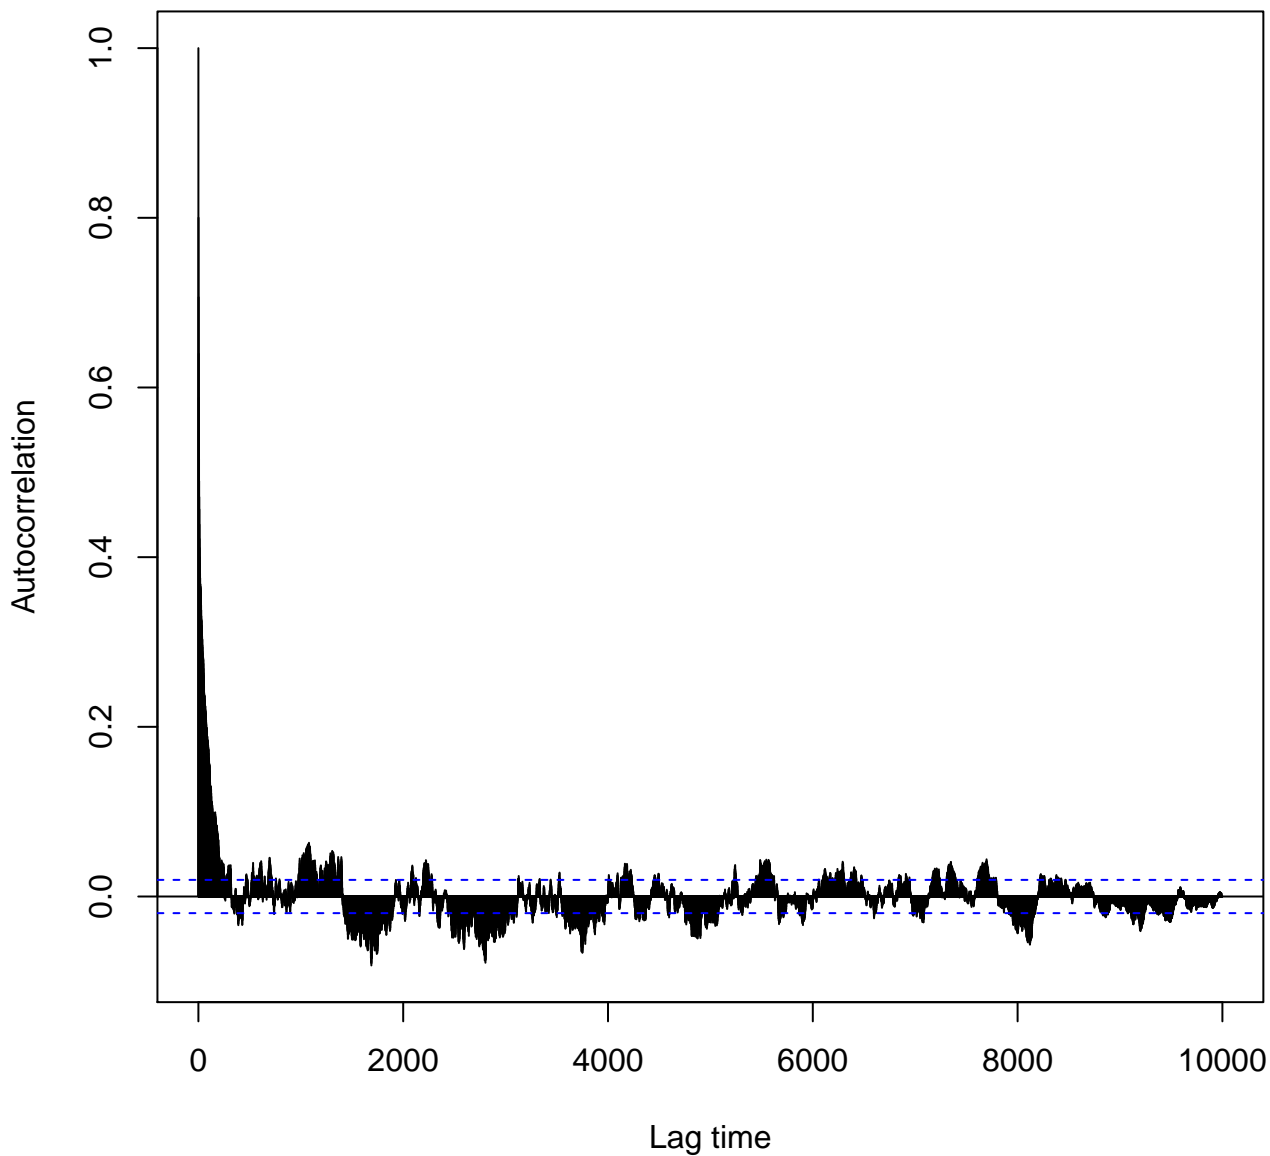

Genes with signal peptides: P CCG dM

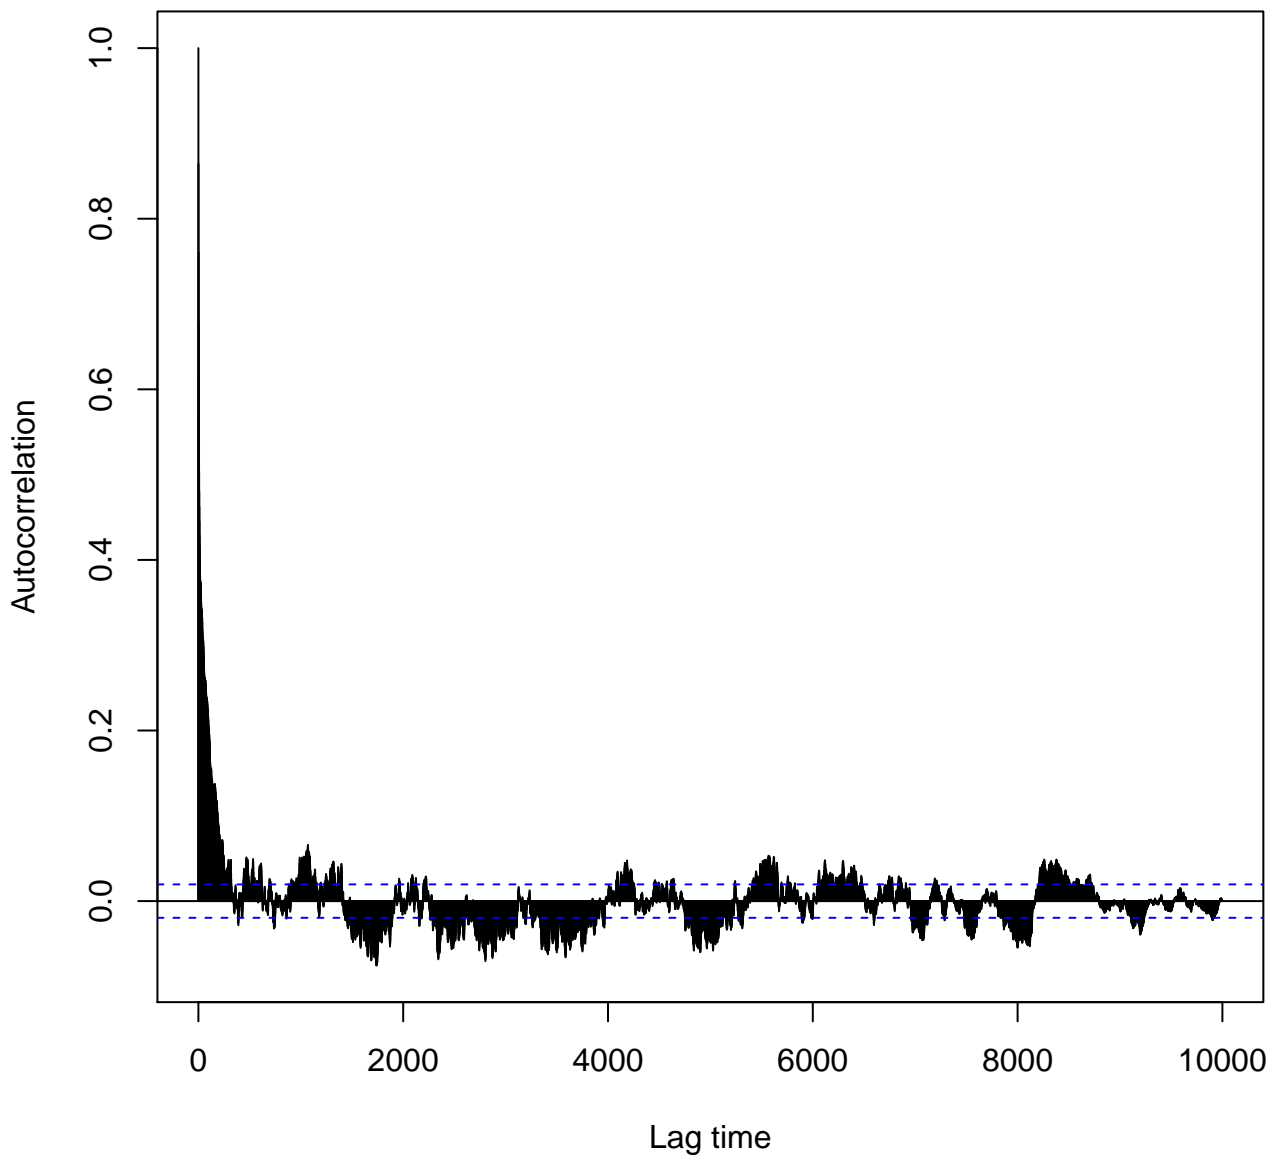

Genes with signal peptides: P CCG dEta

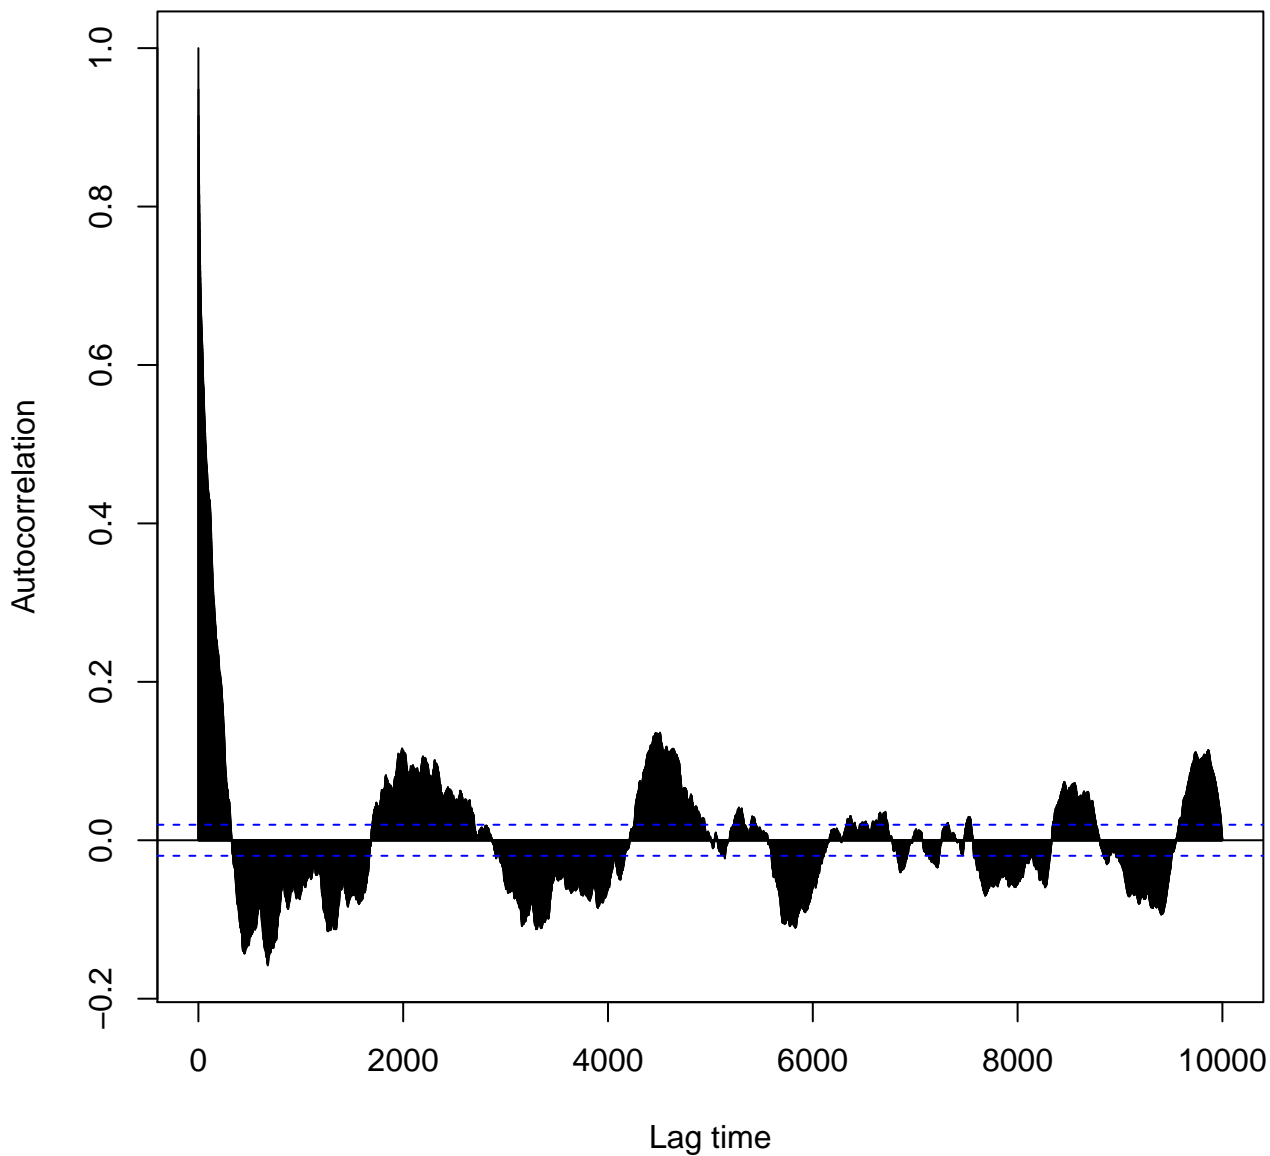

Genes with signal peptides: Q CAA dM

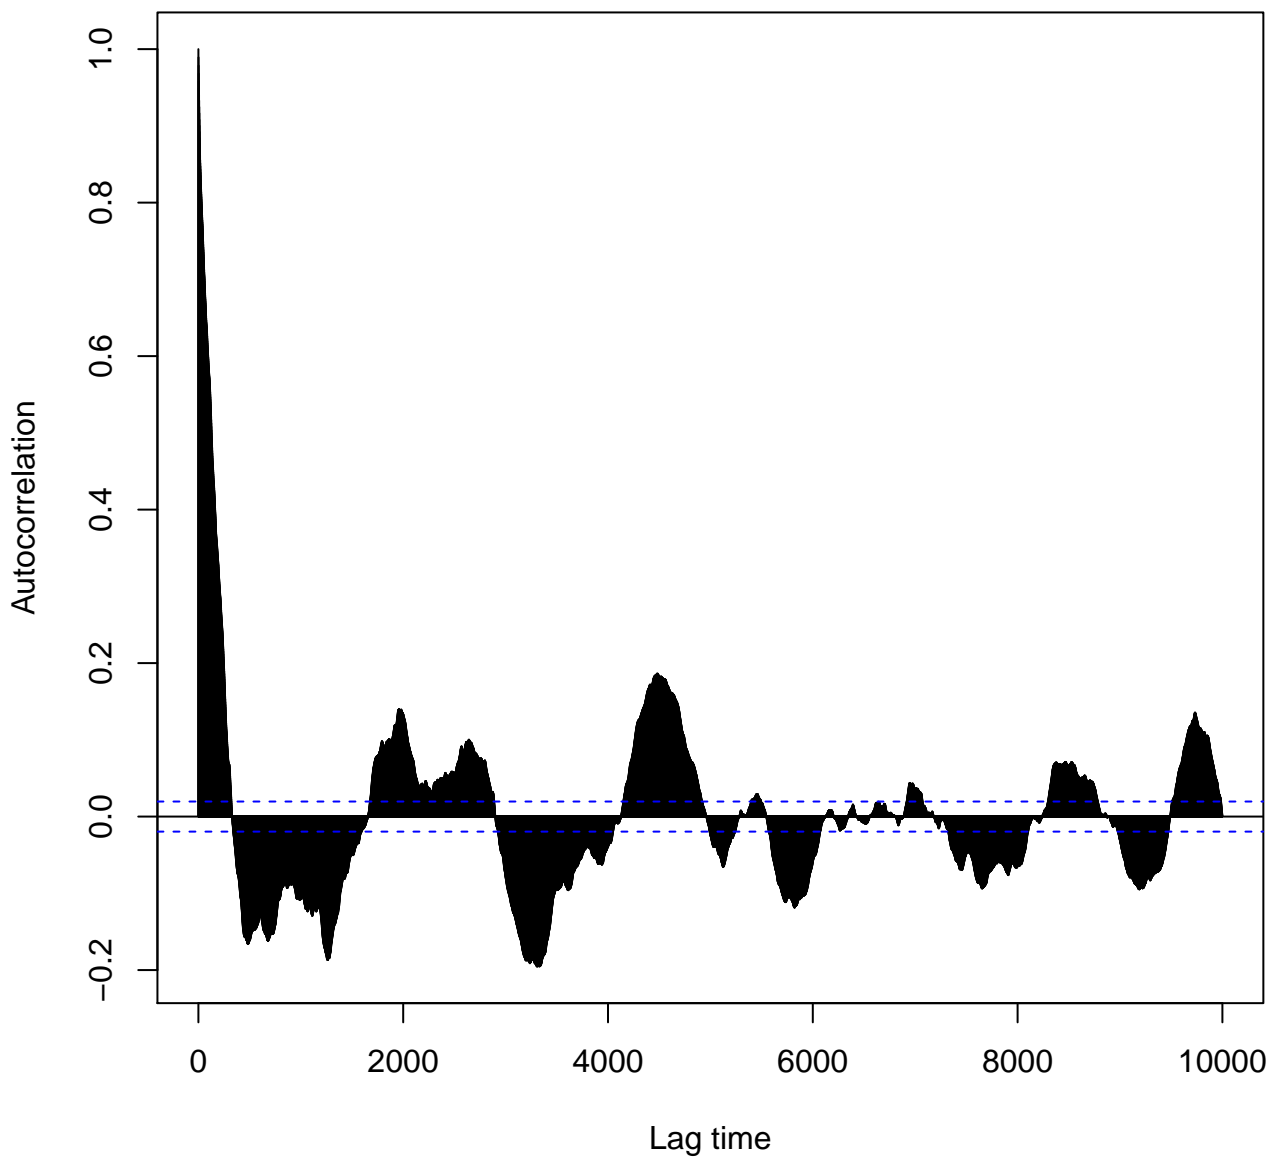

Genes with signal peptides: Q CAA dEta

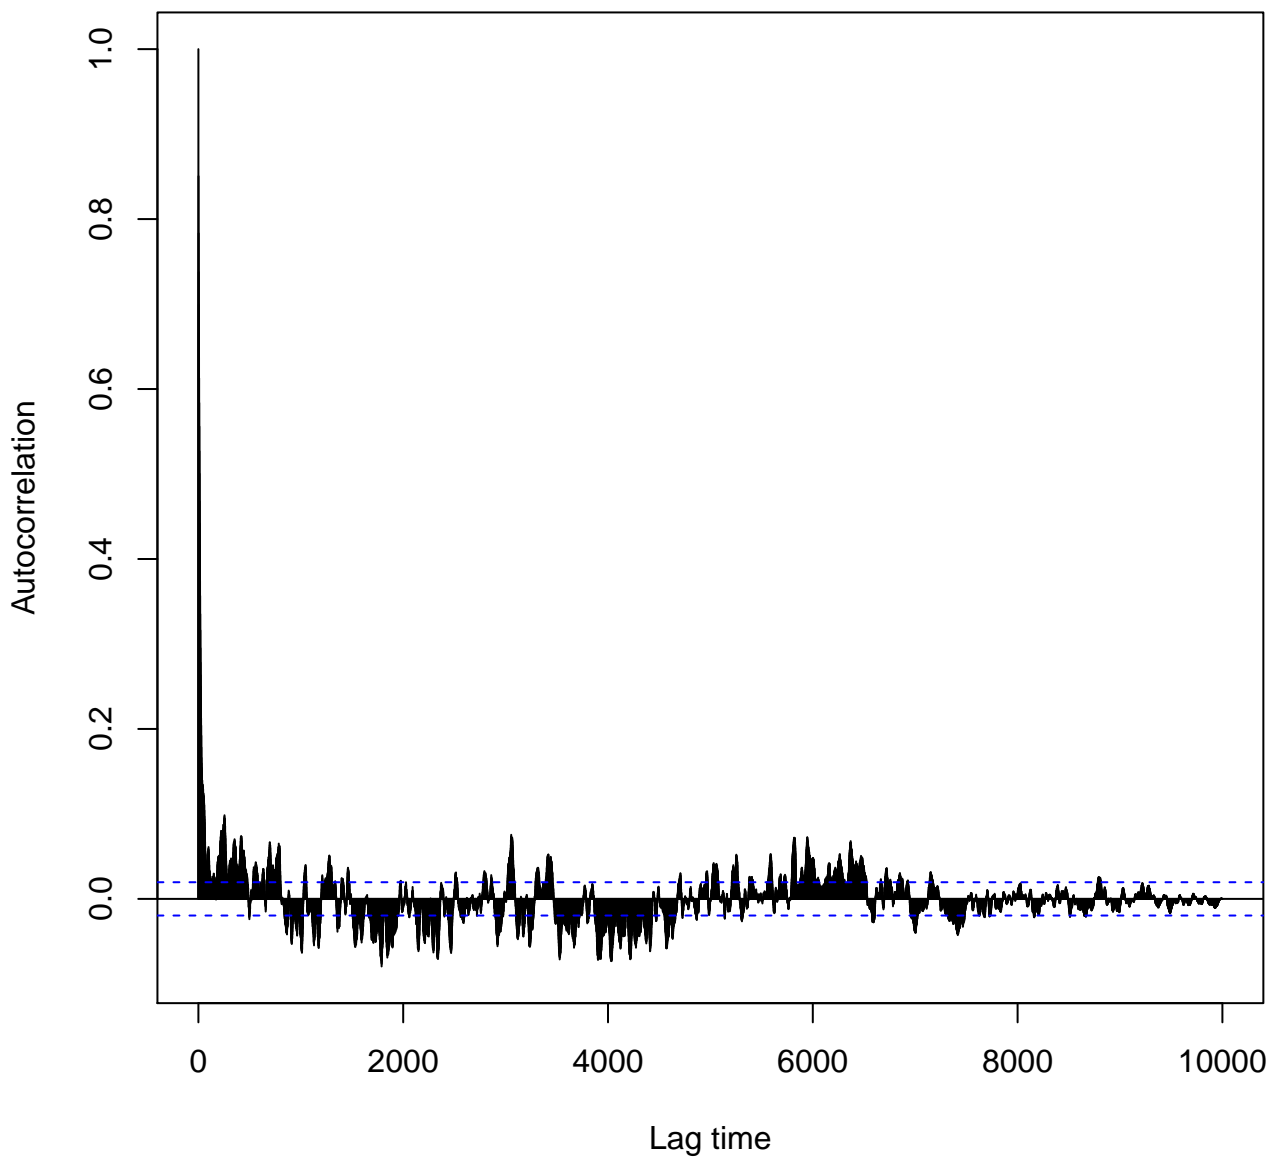

Genes with signal peptides: R CGG dM

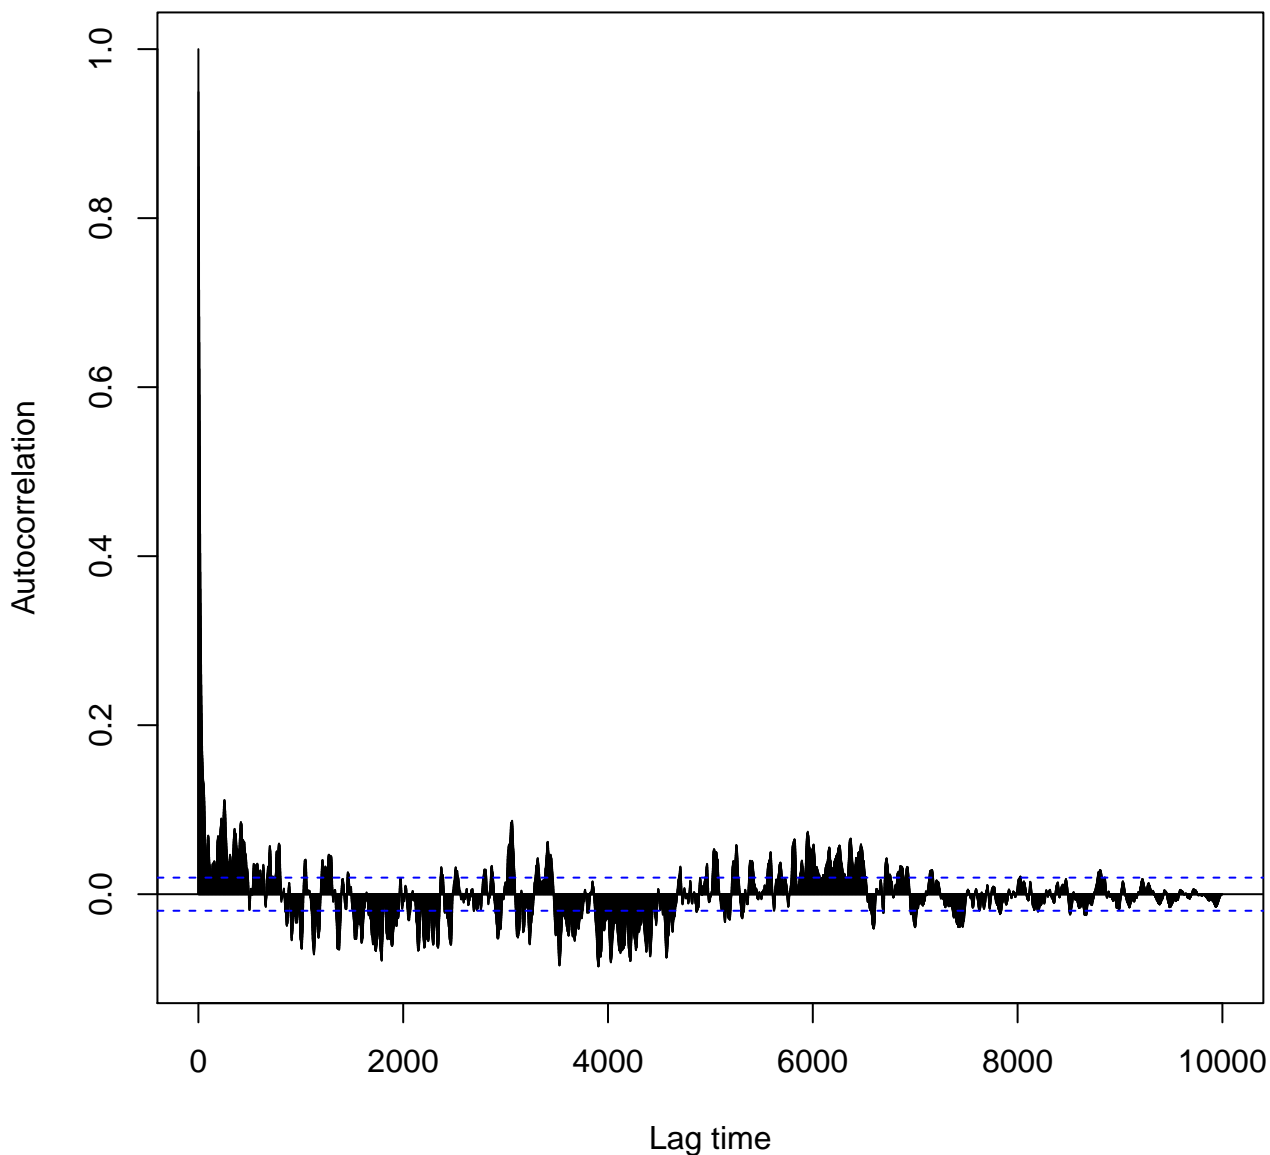

Genes with signal peptides: R CGG dEta

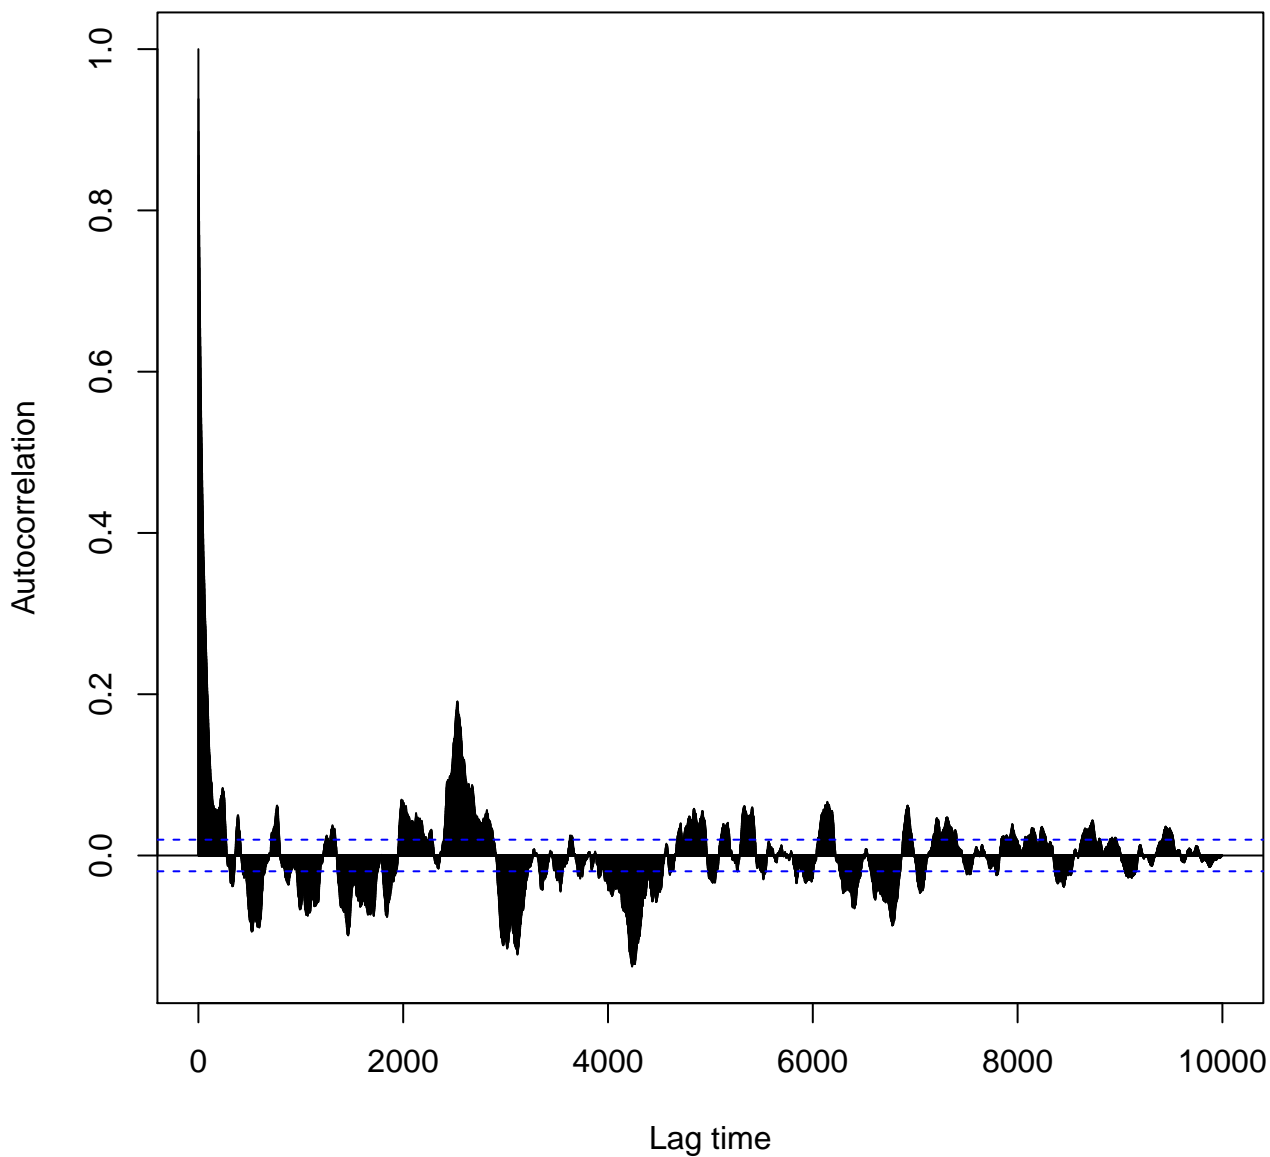

Genes with signal peptides: S TCG dM

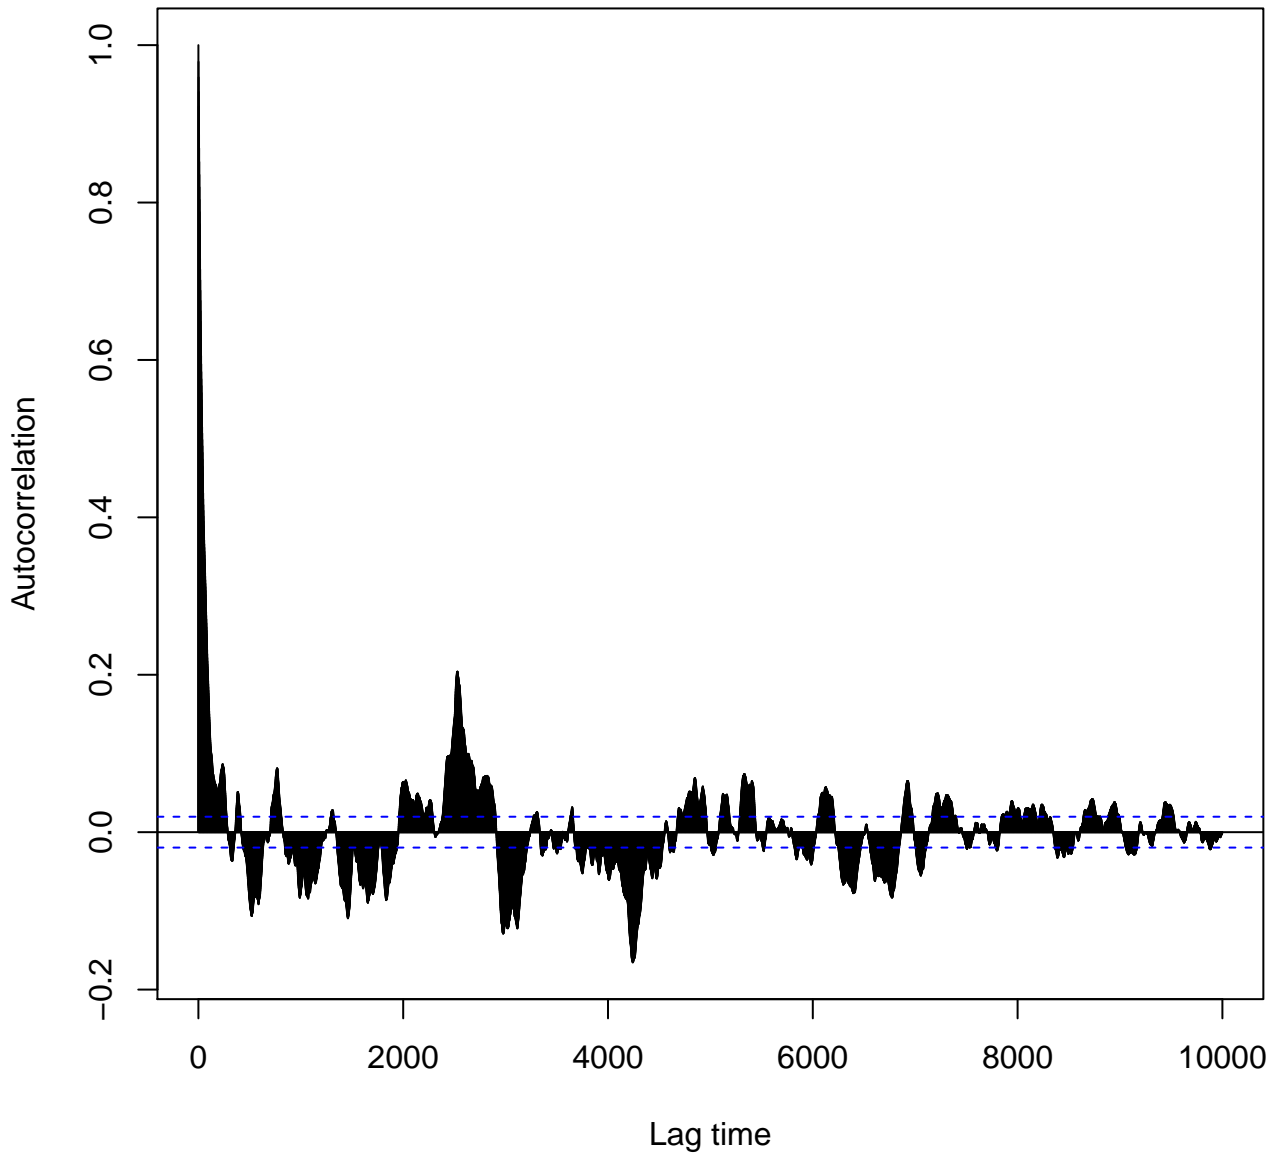

Genes with signal peptides: S TCG dEta

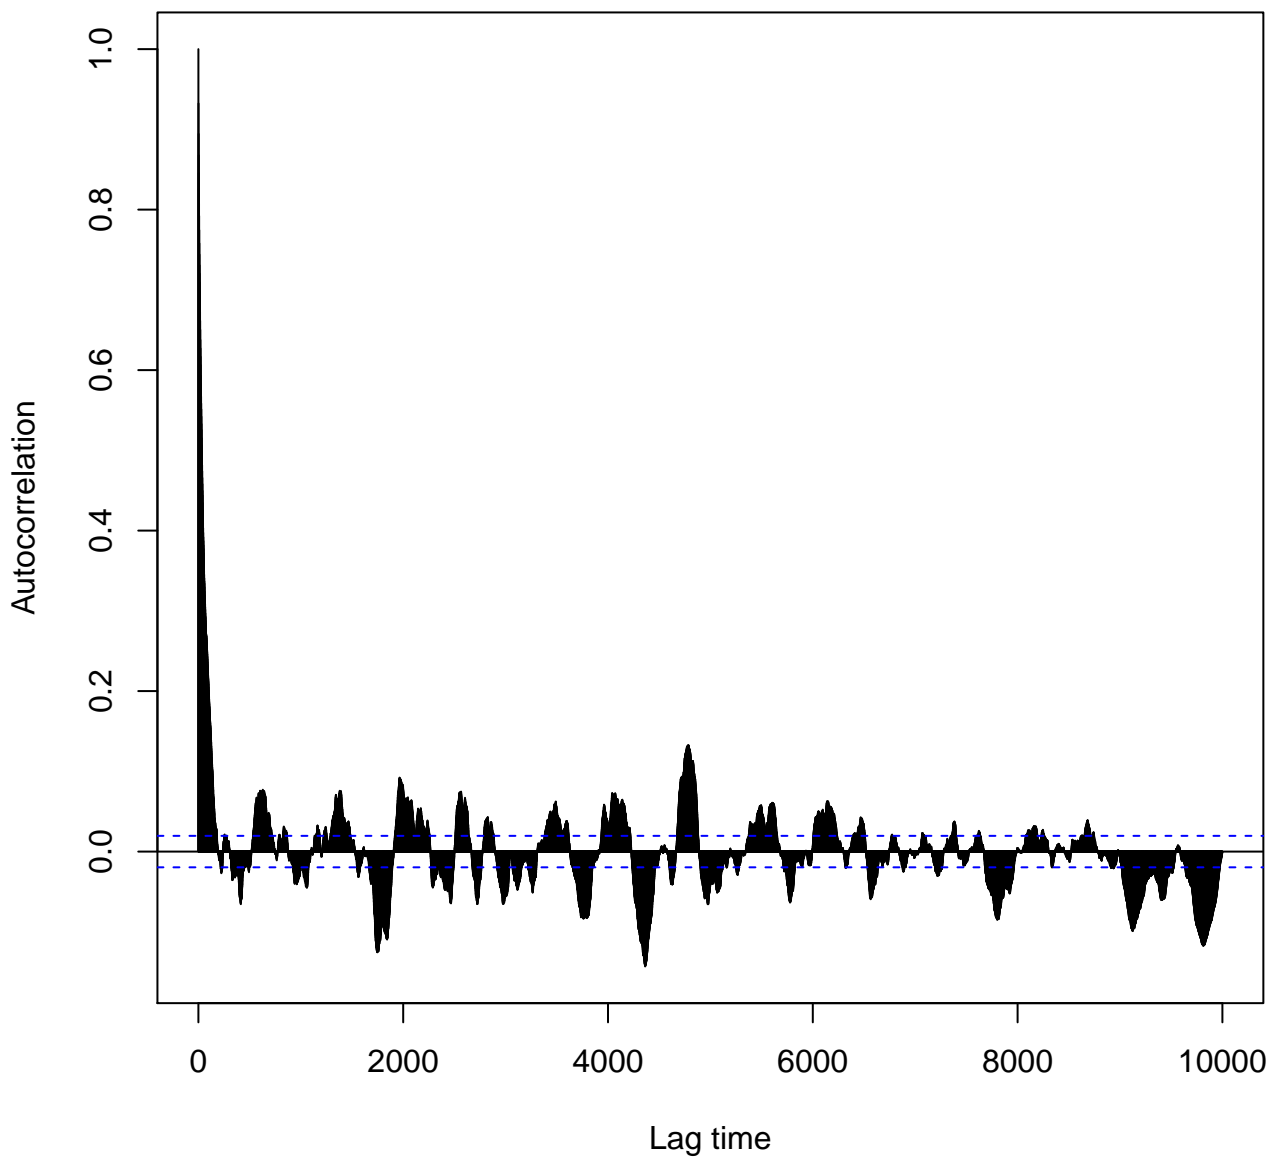

Genes with signal peptides: T ACG dM

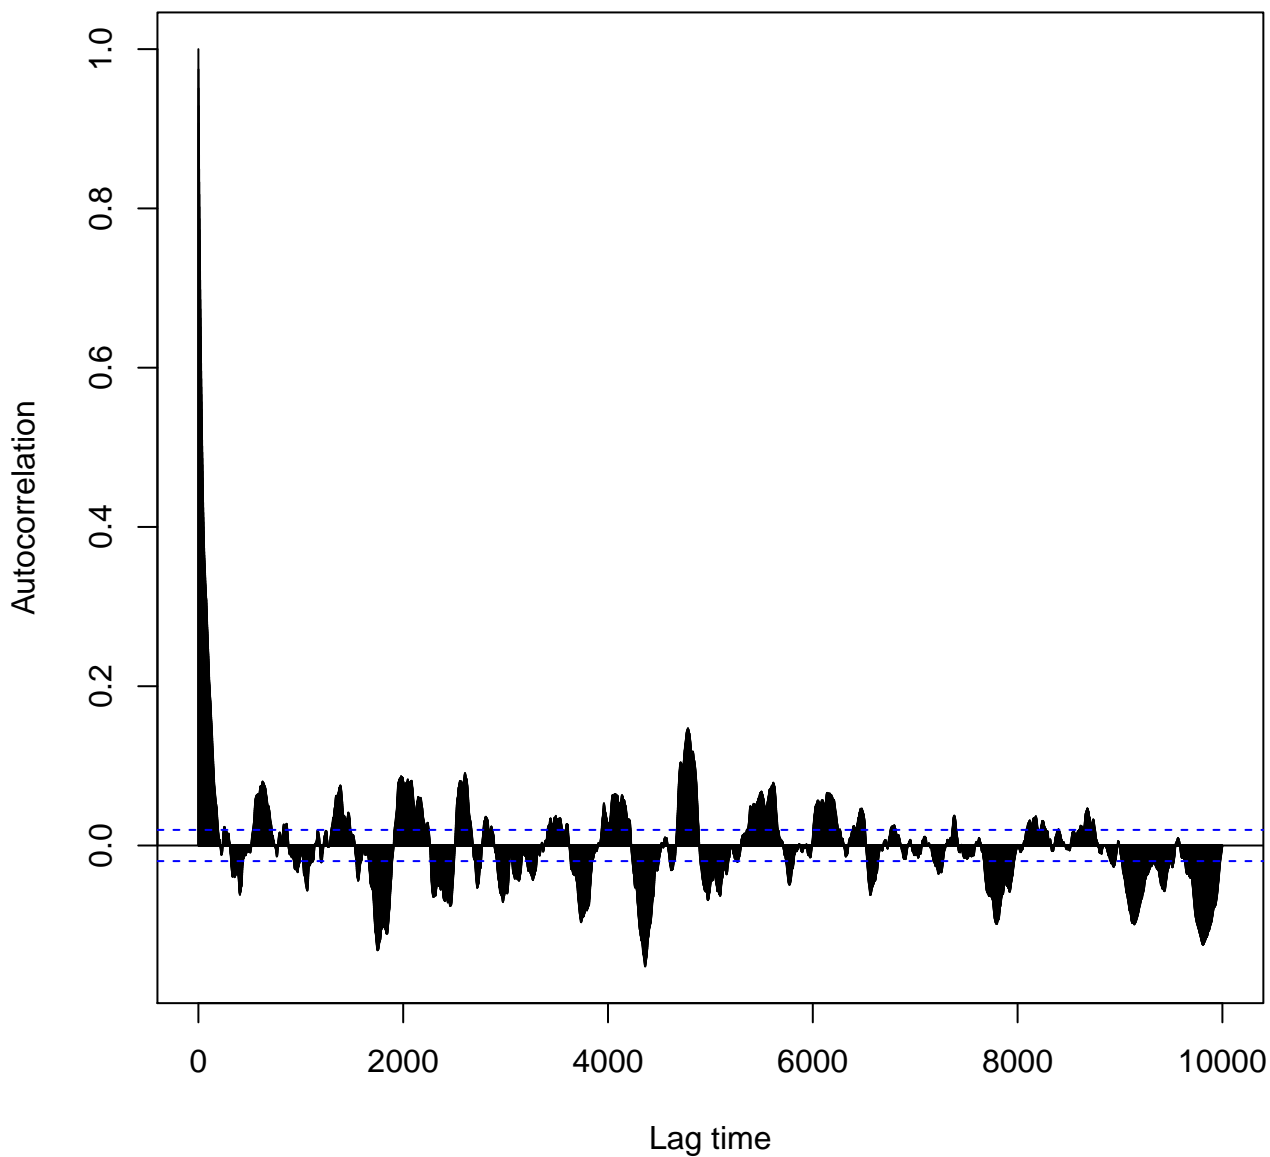

Genes with signal peptides: T ACG dEta

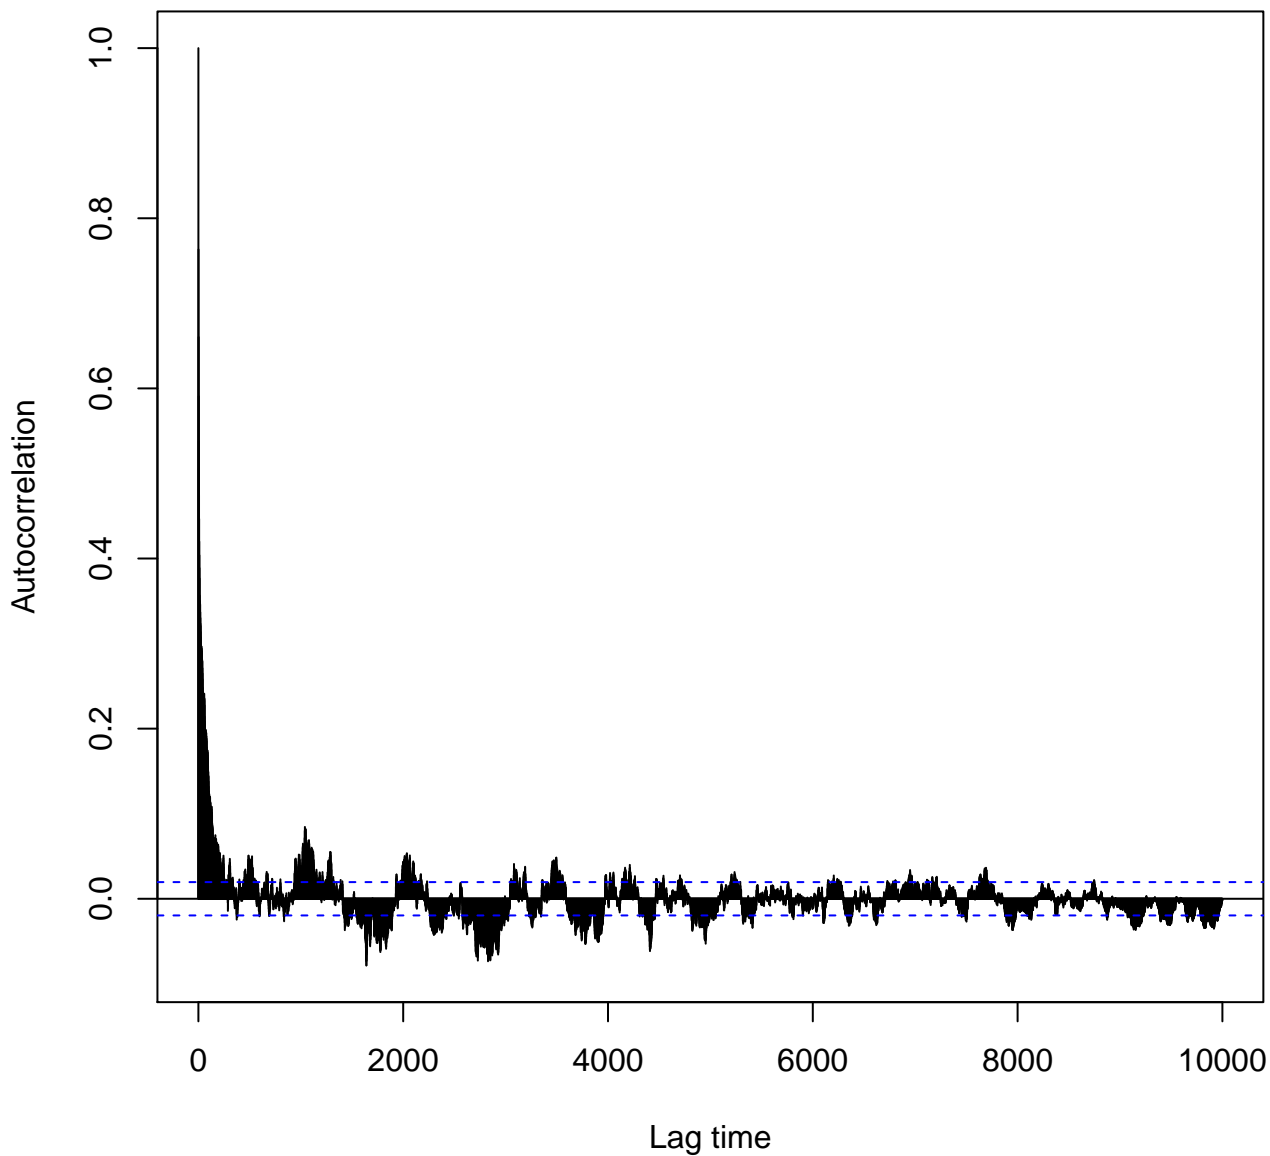

Genes with signal peptides: V GTG dM

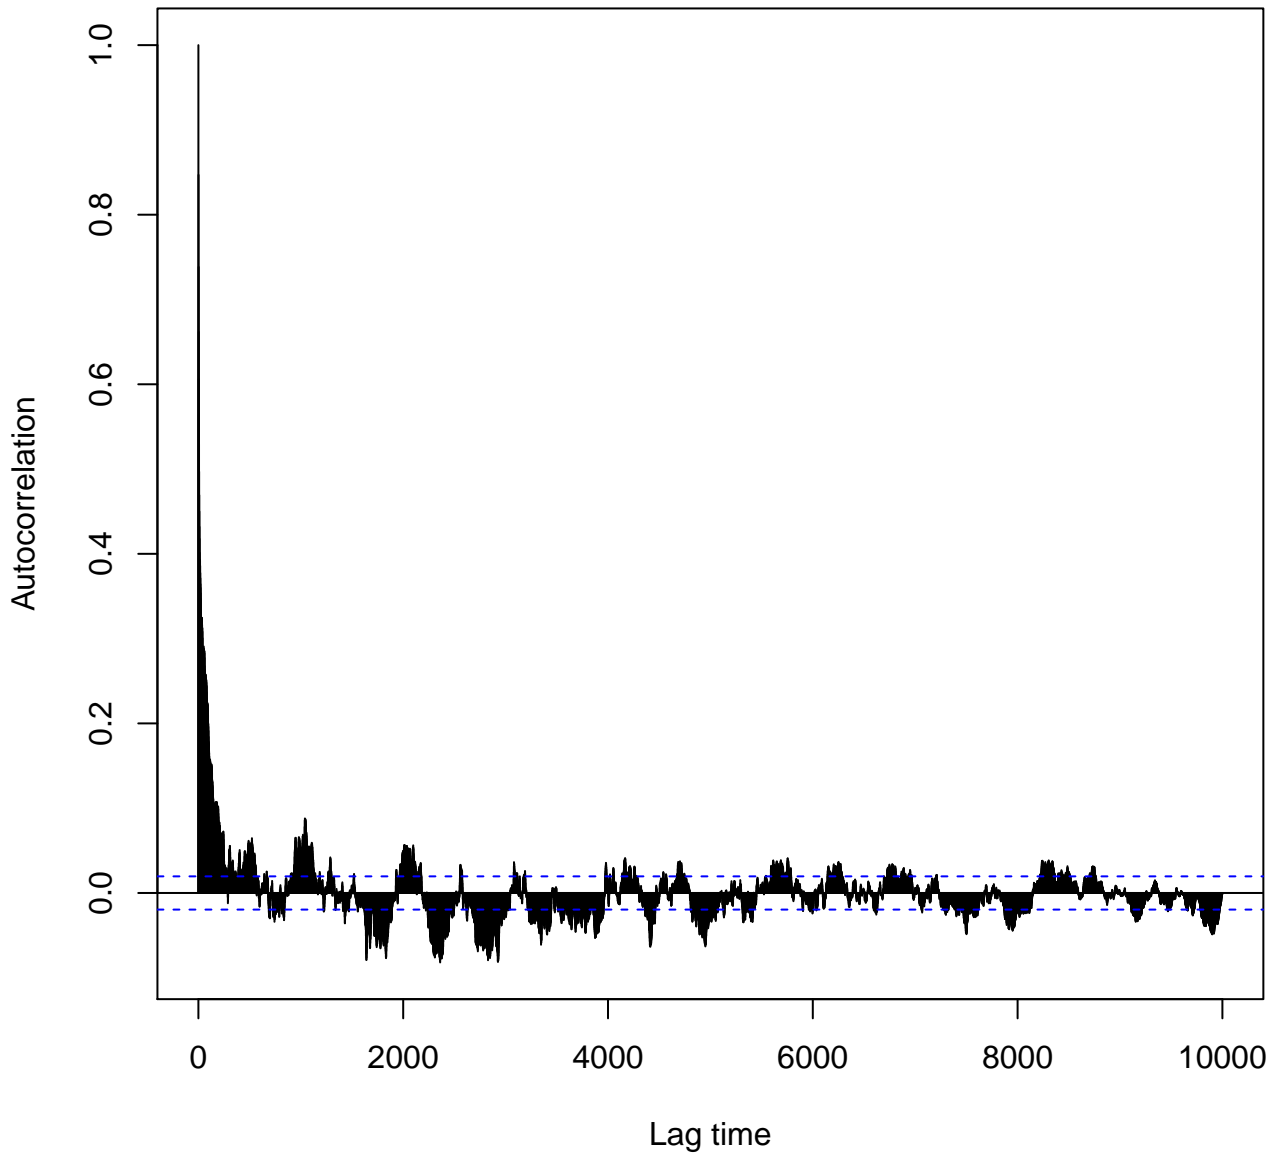

Genes with signal peptides: V GTG dEta

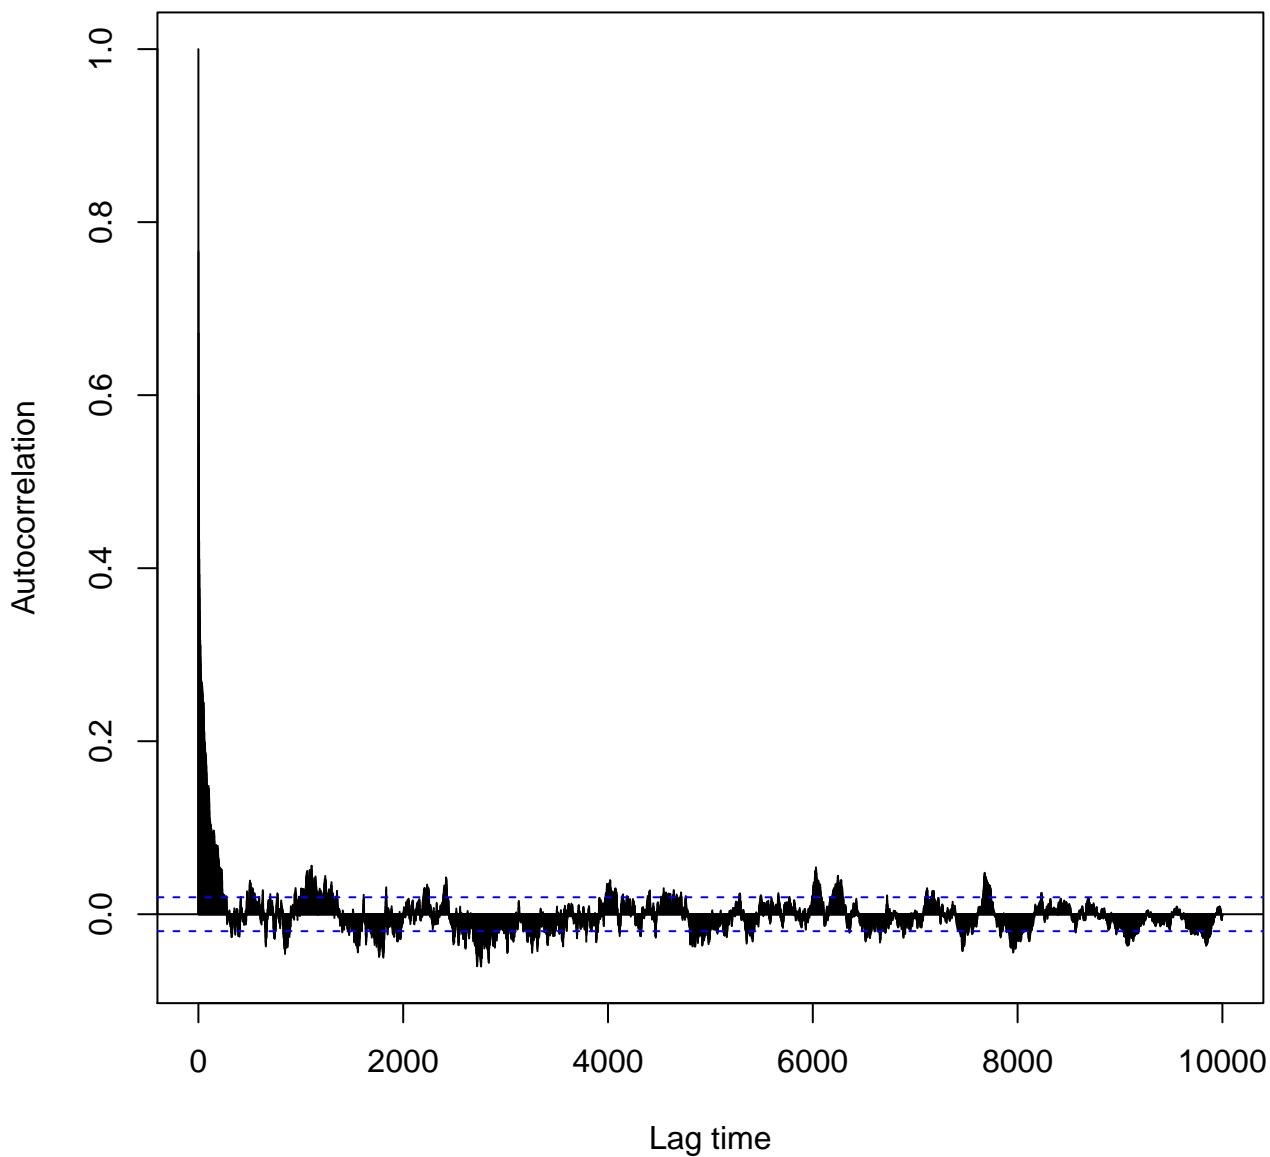

Genes with signal peptides: Y TAC dM

Genes with signal peptides: Y TAC dEta

Genes with signal peptides: Z AGC dM

Genes with signal peptides: Z AGC dEta
